

Teton County
ADDENDUM NO. 1
Request for Bids
Gravel Crushing Teton County Gravel Pits
April 15, 2016

ADDENDUM No. 1 SHALL REPLACE THE APRIL 31, 2016 REQUEST FOR BID IN ITS ENTIRETY

1) Purpose of Request:

The Teton County Road & Bridge Department is requesting bids from qualified contractors for the crushing of gravel at the Driggs & Felt Gravel Pits located in Teton County. The operator will mobilize into these pits for crushing. As an alternate to crushing, bidder may deliver crushed material meeting the specification to the respective gravel pit.

The Driggs Gravel Pit located at the Teton County Transfer Station in Teton County, 1088 Cemetery Road, Driggs, ID

The Felt Gravel Pit is located 2 miles north and 0.25 miles east of the Highway 33 and Highway 32 intersection in Teton County.

2) Time Schedule:

The County will follow the following general timetable:

- a. Issue RFB March 31, 2016
- b. Issue Addendum No. 1 April 15, 2016
- c. The deadline for submitting the responses is Monday, April 18, 2016 at 3:00 p.m. ~~April 15, 2016 at 10:00 am~~ local time.

3) Instructions to Proposers:

- a. All responses shall be sent to:

Darryl Johnson – Public Works Director
Teton County
150 Courthouse Drive
Driggs, ID 83422

OR

Emailed to Darryl Johnson, Public Works Director at; djohnson@co.teton.id.us:

OR

Hand delivered to the County Clerk/Recorder office at 150 courthouse Drive, Driggs ID

- b. An authorized representative of the firm must complete and sign bid.

4) Terms and Conditions:

- a. The County reserves the right to reject any and all bids, and to waive minor irregularities in any RFB response.
- b. The County reserves the right to request clarification of the information submitted, and to request additional information from any respondent.
- c. Any RFB response may be withdrawn up until the date and time set above for opening of the RFB responses.
- d. Companies may submit written questions concerning this RFB to the Contact Person for receipt no later than 5:00 PM local time on April 8, 2016. Questions may be submitted to Darryl Johnson via email to djohnson@co.teton.id.us. Questions received after the stated deadline will not be answered. No oral statement of any person shall modify or otherwise change or affect the terms or conditions stated in the RFB, and changes to the RFB, if any, shall be made in writing only and issued in the form of an Addendum to the RFB and highlighted in the RFB. Addendum, if any, will be posted on the County web site. Bidders are responsible for reviewing all Addendum posted.
- e. The undersigned Bidder proposes and agrees, if this Bid is accepted, to enter into an agreement with Owner to perform all work as specified or indicated in the bidding documents for the prices and within the times indicated in this Bid and in accordance with the other terms and conditions of the bidding documents.
- f. This Bid will remain subject to acceptance for 30 days after the Bid opening, or for such longer period of time that Bidder may agree to in writing upon request of Owner.

5) Bidder's Representations

In submitting this Bid, Bidder represents that:

- a. Bidder has examined and carefully studied the Bidding Documents, other related data identified in the bidding documents.
- b. Bidder has visited the Site and become familiar with and is satisfied as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.
- c. Bidder is familiar with and is satisfied as to all Laws and Regulations that may affect cost, progress, and performance of the Work.
- d. Bidder has considered the information known to Bidder; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Bidding Documents; and drawings identified in the Bidding Documents, with respect to the effect of such information, observations, and documents on (1) the cost, progress, and performance of the Work; (2) the means, methods, techniques, sequences, and procedures of construction to be employed by Bidder, including applying the specific means, methods, techniques, sequences, and procedures of construction expressly required by the Bidding Documents; and (3) Bidder's safety precautions and programs.
- e. Based on the information and observations referred to in section d above, Bidder does not consider that further examinations, investigations, explorations, tests, studies, or data are necessary for the determination of this Bid for performance of the Work at the price(s) bid and within the times required, and in accordance with the other terms and conditions of the Bidding Documents.

- f. Bidder is aware of the general nature of work to be performed by Owner and others at the Site that relates to the Work as indicated in the Bidding Documents.
- g. Bidder has given Owner written notice of all conflicts, errors, ambiguities, or discrepancies that Bidder has discovered in the Bidding Documents, and the written resolution thereof by Owner is acceptable to Bidder.
- h. The Bidding Documents are generally sufficient to indicate and convey understanding of all terms and conditions for the performance of the Work for which this Bid is submitted.

6) Bidder's Certification

Bidder certifies that:

- a. This Bid is genuine and not made in the interest of or on behalf of any undisclosed individual or entity and is not submitted in conformity with any collusive agreement or rules of any group, association, organization, or corporation;
- b. Bidder has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid;
- c. Bidder has not solicited or induced any individual or entity to refrain from bidding; and
- d. Bidder has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for the Contract. For the purposes of this Paragraph:
- e. "corrupt practice" means the offering, giving, receiving, or soliciting of anything of value likely to influence the action of a public official in the bidding process;
- f. "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the bidding process to the detriment of Owner, (b) to establish bid prices at artificial non-competitive levels, or (c) to deprive Owner of the benefits of free and open competition;
- g. "collusive practice" means a scheme or arrangement between two or more Bidders, with or without the knowledge of Owner, a purpose of which is to establish bid prices at artificial, non-competitive levels; and
- h. "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the bidding process or affect the execution of the Contract.

7) Scope of Work

Depending on budget appropriations and Contractor unit pricing, County reserves the right to reduce or increase contracted yardage if deemed necessary. The following criteria will be adhered to as part of the crushing requirements:

- a. Contractor will provide crushed aggregate to the specifications outlined in Exhibit "A".
- b. Bidder agrees that the Work will be substantially complete within 60 calendar days after the date when the Contract Times commence to run. The contractor may begin at any time after execution of the contract.
- c. Bidder agrees to comply with Idaho Code 44-1001 through 44-1005, regarding employment of Idaho residents.
- d. Contractor shall prepare a uniformly graded pad large enough to accommodate material being crushed. The stockpile area shall have a smooth surface with positive drainage and be free of any debris or foreign objects. The County's designated representative must first approve the stockpile area before the Contractor begins the crushing operation.

- e. Contractor is responsible for establishing an adequate number of grade elevation points to maintain a uniform graded pit floor that will allow for positive drainage. The Contractor, upon completion, shall grade and slope the mined pit walls to a slope not to exceed 1:1 (horizontal vs. vertical).
- f. Contractor will be responsible for the blending of all raw materials in the pit to meet the specifications of crushed aggregates in this contract.
- g. Oversize material shall be stockpiled by the Contractor in a designated area within the pit limits to be determined by the County's designated representative.
- h. Any material recycled from the primary crushing operation shall be fully processed or stockpiled at a location to be determined by the County's designated representative.
- i. Contractor shall stockpile production aggregate in such a manner as to prevent cross contaminating stockpiles of materials.
- j. Contractor will provide easy access to County equipment for loading and hauling operations that will not interfere with the crushing and/or mining operations.
- k. Contractor will identify scales to be approved by the County to weigh material paid by weight. Scales used to weigh materials shall include a controller capable of printing a weigh ticket that indicates project name, number, contract pay item number, current date, current time, load number, truck number, load gross weight, load tare weight, and load net weight. Sequential load numbers shall be assigned for each load. Accuracy of scales shall be within ± 1 percent.
- l. Pay request vouchers shall be submitted monthly to the Teton County Road and Bridge Department, 150 Courthouse Drive, Driggs, Idaho 83422. Pay request vouchers will be itemized and shall only charge for quantities that have been measured by a County designated representative and confirmed by the Contractor. All payment requests to County for material crushed must be accompanied with both gradation reports and quantity summaries. In the event of a dispute as to the amount of material crushed, both County and Contractor shall have the right to re-measure the stockpiles at their own expense.
- m. If the County hauls from the production stockpile, and daily load count of material removed shall be kept and the amount confirmed by the Contractor and the County's designated representative. The method of measure shall then be the amount of tons per truckload. Contractor is not responsible for the loading of trucks.
- n. It is mutually agreed that the time for the commencement and completion of the work will affect the progress of other work that the County can or will suffer financial damages in an amount not now possible to ascertain if this work is not completed on schedule. In view of these facts, it is agreed, in the event the County recognizes suffering, County will withhold from the Contractor, as liquidated damages and not as a penalty, the sum of \$500 per day for each calendar day that work remains uncompleted beyond the date specified for the completion of the work. Completion of the work will be when the Contractor produces the contract quantity specified $\pm 5\%$ by the Contract Date.
- o. Before leaving the designated pit location, Contractor shall schedule a meeting with the County to inspect the work completed to include: stockpiling of oversize material, uniform grading/leveling of the pit floor, and cleanup of discarded litter. This shall be performed to the satisfaction of the County.

- p. Rain Days – The Contractor agrees to notify the County designated representative at the time the Contractor decides to stop crushing. The County reserves the right to inspect the pits and negotiate the time allowed, if any, for rain delays.
- q. Provide on-site supervision for the duration of the project. Working days shall be limited to Monday through Saturday. Working hours shall commence no earlier than 7:00 a.m. and cease no later than 7:00 p.m. Hours of operation shall not apply to routine maintenance of contractor's equipment on site. Under no circumstances shall contractor be permitted to house employees on site.
- r. Contractor will be permitted to store all necessary equipment and materials within the site. Fuel tanks must be properly safeguarded so as to avoid any groundwater contamination. Contractor shall be required to abide by all rules and regulations governing sand and gravel operations with respect to employee health and safety.
- s. The Contractor shall notify the County, in writing, 24 hours prior to the start of the crushing operation. All progress reports and operational delays shall be submitted to the County in writing.
- t. All materials and each part of detail of the work shall be subject to inspection by the County. They shall be allowed access to all parts of the work and shall be furnished with such information and assistance by the Contractor as is required to make a complete and detailed inspection of the crushing operation.
- u. All inspections and tests conducted are solely for the convenience and benefit to the County. The County shall in no way be bound by such inspections or tests, nor shall such inspections and tests constitute acceptance of materials or work. The County may reject or accept any work or materials, at any time, prior to the time that a County inspection or test is conducted.
- v. Crushing contractor shall notify County and testing lab 24 hours prior to when gravel test samples need to be taken. It shall be the Contractor's responsibility to have gradation samples taken within the first 1,000 tons by a qualified materials testing laboratory and provide copies of same to County. Contractor shall immediately notify County of gradation samples not meeting the agreed upon specifications. Additionally, Contractor shall allow County to randomly take gradation samples for comparison at its own expense. In the event a gradation sample is out of specification, Contractor shall be allowed to take additional gradation samples in order to establish that material is within acceptable limits. Contractor shall only be paid for material meeting specification.
- w. All testing of crushed aggregates produced under this specification shall be performed by a qualified materials testing laboratory and paid for by the Contractor
- x. All aggregate material classed as non-acceptable shall remain the property of Teton County but it shall not be considered as produced material under the contract. Payment for these materials shall be at the option of Teton County and may be at a lesser amount.
- y. A sufficient number of tests shall be performed during aggregate production to ensure that the specified quality of the aggregate is obtained. All testing shall include sieve analysis, liquid limit, plasticity index, and rodded unit weight.

EXHIBIT A
(Bid Documents)

Crushed material shall be hard, crushed stone, without an excess of flat, elongated, soft or disintegrated pieces. Chips shall be free from dirt, organic matter, clay balls, adherent films of clay, dust, or other matter. Material shall meet the following gradations:

BST Chip (Otta Seal) Chip Gradation

Sieve Size	% Passing
3/4"	100
5/8"	80-100
3/8"	36-98
1/4"	20-80
#4	10-70
#200	0-10

3/8" Chip Gradation

Sieve Size	% Passing
1/2"	100
3/8"	95-100
#4	0-15
#8	0-5
#200	0-2

3/4" Surface Gravel Gradation

Sieve Size	% Passing
3/4"	95-100
3/8"	67-83
#4	48-68
#16	30-45
#40	15-35
#200	10-18

Plasticity Index: 4-12

Teton County will blend additional material as necessary with the native gravel to meet the plasticity requirements. The plasticity requirement shall serve as guideline.

2" Minus Gravel Gradation

Sieve Size	% Passing
2-1/2"	100
2"	90-100
1"	55-83
#4	30-60
#30	10-25
#200	2-12

60% of aggregate shall have at least one fractured face.
