

TETON COUNTY PLANNING AND ZONING COMMISSION
JOINT WORK MEETING WITH THE BOARD OF COUNTY COMMISSIONERS
Meeting Primer – August 2, 2016
Commissioners' Chambers - Driggs, ID

Documents to Review

- Code Changes
 - I updated my list of code changes. I made it one document with the sections identified instead of the excel table, so I could have some more room for clarifying different items. The Code Changes doc references some attachments, which are all included at the end of the PDF.
 - I'd like to have a yes/no to move forward by the end of this meeting. I will be changing all of the inconsistent language (i.e. Land Use Code vs. Land Use Development Code, etc.) and the typos, but those are not included on the list.
- Public Outreach Schedule
 - I updated our original schedule for a public version. I took out the weeks I am gone and add the written public comment deadlines.
- Public Outreach Flyer/Brochure
 - This is the outreach brochure I made based on our conversations at the last meeting. I have included the zoning map. I only include key assets & development designs for each zone to keep it light, but if you want it to include other information, that can happen.
 - I've reached out to some different printing agencies, and Alpha Graphics seems to be the best deal. They will print, fold, mail, and deliver extra brochures to us.
 - We need to decide how many brochures we want printed that will not get mailed to Teton County residents.
- Updated FAQs sheet
 - I updated the FAQs sheet based on the comments at our last meeting. I incorporated some of the changes identified in the Code Changes PDF. This PDF has a list of the questions at the top of the page and everything is hyperlinked so someone can skip over questions they know the answers to. I have throughout Articles and Sections underlined to make into hyperlinks once everything is finalized and online.
 - Are there any other questions you'd like added to this sheet?

Still needed – updated Comp Plan Analysis. I still need to finish the comp plan analysis. I will be using the U of I report and Jason's old reports as a starting point, but I plan to put it in a different format and link the different sections so readers can skip through the goals if there are only certain ones they're interested in. I hope to get this done before I go out of town, but it might be after. I'll email it to you all if you want to comment, or we may be able to review it on the 16th if I can get it finished.
