

Teton County

Emergency Management & Mosquito Abatement & IT

Department Report 8/9-9/8/2015

Projects Accomplished

John Leidorf and I were able to attend the VMware 6 Install, Configure and Manage class in Salt Lake City. The class was a great introduction to VMware with some excellent hands on opportunities to practice. VMware in particular and server virtualization in general, is able to contribute greatly to reducing hardware costs and reducing down time. Our current installations at the Courthouse and the LEC are barely scratching the surface of all of the things that we could be doing to make our IT infrastructure more robust and reliable.

Currently our IT infrastructure has got a lot of issues. One of our servers has a service stop because of lack of memory about every 3rd day. Last weekend we had our email server and our network domain controller go down. The physical host servers we have for our virtual servers were not setup to run virtual servers but were only given enough ram and processing power to handle a single servers needs instead of the 4 to 5 servers that they are each running. In addition our VMware licensing does not allow us to backup our servers or provide us with the ability to automatically fail over in the event of hardware or software failure. We will need to pay for the software in order to make these things happen. We are able to backup the data on the servers, but not the actual Operating System in an easy or reliable manner. Our oldest physical host server has been out of warranty for over 2 years. If we have a catastrophic hardware failure on that host server we will lose 4 virtual servers and it will take at least a week to recover and whatever it costs to repair or replace that server.

I propose that we remain in an evaluation stance with JCorp services for another two weeks and if things continue to go well, that we then proceed to move to a contractual situation.

IT has been taking around 70% to 80% of my time. In addition, I was asked to take on IT one month before I was hoping to. Because of these factors our All-Hazard Mitigation Plan revision project is falling behind schedule and I am unable to get it back on track by myself. This plan allows us to be eligible to receive Federal mitigation grant funds and in the event of a disaster we will be eligible for recovery funds. In order for us to be eligible for the next grant cycle we need to have this plan turned in no later than January. Integrated Solutions Consulting was the planning contractor that oversaw our last Emergency Operations Plan revision. I am currently helping them revise Fremont County's All-Hazard Mitigation Plan in my spare time. In visiting with them they would be willing to come and help me finish up our All-Hazard Mitigation Plan for \$4,000. The average cost for an All-Hazard Mitigation Plan project is between \$20,000 to \$30,000. In my opinion ISC's offer to help is very generous and I can't imagine another qualified contractor being interested in our project for anywhere close to that amount of money. I am going to need \$4,000 from contingency in order to be able to make it work. May I get \$4,000 from contingency to allow me to proceed to contract with ISC to get the project finished up?

The mosquito season is over and I have attached the end of season report to this document.

On September 19th I had a booth for both Emergency Management and Mosquito Abatement at the Health Fair.

Future Projects

In order to be certain that our plans to get the IT infrastructure back on track are both efficient and cost effective we would like to enlist the knowledge of an experienced VMware expert. The Town of Jackson happens to have one and John and I are working to try and get them to give us their opinion on how we should proceed and what hardware and software would be necessary.

Future Appointments

Teton County

Idaho

Integrated Solutions Consulting

SECTION I. EXECUTIVE SUMMARY

Like most states and local jurisdictions, Teton County and the State of Idaho are not immune to hazards that may impact the community. Each year brings new concerns and an increasing probability of a natural or manmade disaster occurring, such as flooding, drought, and terrorism. In fact, the severe weather events in past years that have occurred throughout the state serve as a constant reminder that every community, including Teton County, is vulnerable to all types of hazards.

Over the past three decades, the nation has witnessed an alarming increase in the frequency and impact of large-scale emergencies and disasters. Congress has witnessed a significant increase in direct and indirect costs, as well as economic disruption and loss of life, from disasters.

As part of our commitment to assist Teton County, Integrated Solutions Consulting (ISC) understands the funding constraints facing local jurisdictions, and can leverage our programmatic knowledge and experience to assist the County in meeting both the short and long-term goals as it relates specifically to mitigation planning and, more importantly, implementation. Furthermore, we recognize and advocate that the sincere investment in the development and maintenance of all-hazard mitigation plans on the part of all levels of government will provide the foundation for effective pre- and post-disaster mitigation actions; and ultimately greater resilience.

OUR TEAM'S CAPABILITIES

We believe the proposed Integrated Solutions Consulting (ISC) Team offers Teton County a unique, unmatched, and valuable team of committed and experienced individuals, and a contractor that will provide Teton County with a structured, proven, and integrated approach to hazard mitigation planning projects supported by local knowledge and recognized emergency management expertise. Our intent is to provide Teton County with a Multi-Jurisdictional Hazard Mitigation Plan that is programmatically and operationally effective.

SECTION II. CORPORATE BACKGROUND AND RELATED EXPERIENCE

A Client-focused Firm with National Expertise

Integrated Solutions Consulting (ISC) was organized in the State of Illinois in 2005. Since the inception of ISC, we have become leaders committed to taking an all-hazard, integrated approach to help solve complex challenges facing communities to develop comprehensive solutions and plans for an increasingly volatile world. ISC is a NAICS defined small business enterprise that provides emergency management, mitigation and comprehensive planning, training, and recovery support services to a variety of governmental and industrial clients. Specifically, ISC is focused on developing and implementing comprehensive crisis and consequence management solutions for local governments. This is accomplished by providing top tier consultants that are recognized national leaders in the field of emergency management and possess extensive operational disaster and mitigation programmatic experience. The principles of ISC are based on our combined 100+ years of practical experience and educational attainment in the fields of emergency management, homeland security, law enforcement, health, and environmental sciences; and are supported by our reputation of providing exceptional professional consulting services.

ISC is a NAICS defined small business enterprise that provides emergency management, mitigation and comprehensive planning, training, and recovery support services to a variety of governmental and industrial clients.

ISC has obtained the recognition of providing exceptional, client-focused services and celebrated for its integrated "best-practices" approach to all-hazards mitigation planning. ISC has leveraged its founding partners' strive for excellence into every project initiated. Our commitment to excellence has resulted in maintaining a **perfect track-record** of receiving FEMA-approval on the initial submission of some of the nation's most complex hazard mitigation planning initiatives.

- ✓ Number of Employees: **16**
- ✓ Number of Years in Business: **9**

OUR PEOPLE

At ISC, we recognize that our past and future success is directly attributed to hiring and continuously investing in outstanding people. We take great care in recruiting seasoned consultants that possess a consistent record of success and demonstrate a commitment to the emergency management profession. Our team is comprised of a complementary group of professionals whose skill sets are based on a mix of academic achievement and proven experience. The skill sets range from a wide variety of fields necessary to offer a complete and comprehensive delivery of technical expertise on any emergency management related project. Although education is highly valued at ISC, we recognize that providing seasoned, real-world professionals is an important component of delivering our clients comprehensive solutions that work.

Our consultants range from ambitious professionals with advanced academic degrees and real-world experience to seasoned professionals with over 20 years of experience.

- ✓ Two of our key employees hold PhDs in Emergency Management from an accredited land grant university, which is a distinction only held by a very select few in the world.
- ✓ Integrated Solutions Consulting (ISC) currently employs two (2) Certified Emergency Managers and two (2) Certified Flood Plain Managers.

DOCTORATE OF EMERGENCY MANAGEMENT (PH.D.)

- Dan Martin, PhD, CEM, CFM
- Micheal Kemp, PhD, CEM

CERTIFIED EMERGENCY MANAGERS (CEM)

The following are the ISC staff members that have their Certified Emergency Managers (CEM)
(Note: Verification is available at
<http://www.iaem.com/certification/generalinfo/documents/CEMLIST.pdf>)

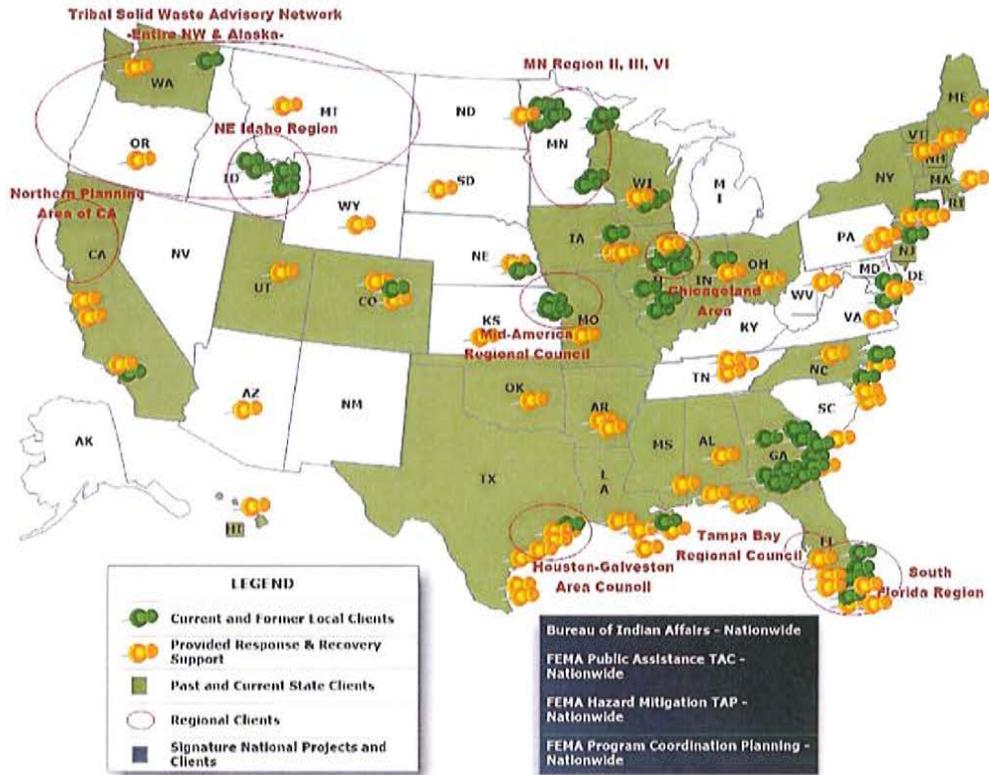

- Dan Martin, PhD, CEM, CFM
- Micheal Kemp, PhD, CEM

CERTIFIED FLOODPLAIN MANAGER (CFM)

The following are the ISC staff members who are Certified Floodplain Manager

- Dan Martin, PhD, CEM, CFM
- Daiko Abe, CFM

RELATED EXPERIENCE

Current Mitigation or Related Projects:

- Multiple Mitigation Plan Updates in Minnesota, Montana and North Dakota (i.e. Cass County, Clay County, Becker County, Marshall County, Roseau County, Hubbard County)
- Fremont County, ID
- Waukesha County, WI
- Miami-Dade County, FL THIRA Update 2014
- Seminole Tribe Mitigation Plan Update 2014

SECTION III. PROJECT APPROACH & SCOPE OF WORK

Demonstrated Project Methodology that Ensures Programmatic Success

Integrated Solutions Consulting (ISC) will work closely with Teton County throughout this mitigation planning process. ISC's active participation will help to ensure that the mitigation plan development process meets the requirements as defined by DMA 2000.

SCOPE OF WORK

Task 1: Coordination, & Public Participation

Subtask 1.1: Coordinate with Mitigation Planning Team

ISC will work with the designated County and Local Planning Committee. Coordinating with this core group is important to ensure support of the planning process and implementation once the plan is completed. The planning committee will further coordinate with neighborhood groups and other non-profit organizations, state, regional, and local government representatives, businesses and development organizations, federal representatives, elected officials, academic officials, and individuals from neighboring jurisdictions.

Subtask 1.2: Public Involvement

During the planning/update process, ISC will conduct one public forum to review the draft of the mitigation plan upon completion. ISC will conduct the presentation and will assist in answering questions. ISC recognizes that previous meetings were already conducted to help form the key tenets of the plan.

The County survey will also be analyzed and incorporated into the Public Participation section of the plan.

Task 2: Threat, Hazard Identification and Risk/Vulnerability Analysis

Subtask 2.1: Update & Identify Hazards

The ISC team will help the County's planning team review all of the hazards that might affect the County. The SC team will take the existing draft risk assessment and ensure compliance and integrate the section into the overall plan. Improvements and enhancements will be made, as appropriate.

Task 3: Develop and Prioritize Mitigation Goals and Actions

Effective mitigation actions and preparedness activities are complementary of one another and provide a holistic approach that aligns multiple state and federal directives and funding. The strategies proposed by ISC will ensure compliance with DMA 2000, and will delineate between pre-disaster (FEMA's PDM

program) and post-disaster (HMGP 404 and 406) actions. The ISC team will provide technical support to the six hazard mitigation and preparedness categories, as defined by FEMA: prevention, property protection, public education and awareness, natural resources protection, emergency services and structural projects.

Identifying and prioritizing mitigation actions are the fundamental components of a Hazard Mitigation Plan. In the previous tasks, hazards were redefined, vulnerabilities were reassessed, and the losses were estimated. Development of a prioritized and updated list of mitigation actions will be developed that will reduce future risks and losses.

Subtask 3.1: Identification and Reprioritization of Mitigation Actions

Mitigation actions consistent with the goals and objectives that were previously defined will be reevaluated. The hazard mitigation plan defines the action plan to reduce community loss from future hazard events. In order to update a plan that can be integrated into other emergency management operational phases, it is important to acknowledge the interdependencies of mitigation with response, recovery, and preparedness functions of emergency management. ISC will assess previously identified mitigation actions relevant to:

- Prevention
- Property protection
- Public education and awareness
- All resources protection
- Emergency services
- Structural project

The mitigation actions updated will be evaluated to determine the action's effectiveness and efficiency for preventing, protecting, and reducing damages to the community's assets from natural hazards. Evaluation of these mitigation actions will be based on, but not limited to, the following criteria:

- Technical feasibility
- Economic benefits
- Environmental impacts
- Community acceptance
- Staffing and funding
- Maintenance needs
- Political support
- Legal authority
- Historical projects of similar scope or magnitude

Subtask 3.2: Review the Implementation Strategy

The implementation strategy identifies how Teton County proposes to achieve its Mitigation goals and objectives. The mitigation action implementation strategy will redefine, identify, and confirm mitigation actions, partners, resources, and schedules.

ISC will prepare a draft Mitigation Implementation Strategy for review by the Local Planning Committee and County. Once reviewed, ISC will incorporate changes to the newly updated Mitigation Implementation Strategy.

Task 4: Complete Hazard Mitigation Plan Update

The Planning Committee, with assistance from ISC, will prepare the Mitigation Plan. The County will assume authorship of the updated plan, and can rely on ISC's dedicated partnership and expertise throughout the process. Although the analyses and compilation of the plan will largely be completed by ISC, the County will exercise final decision regarding the outcome of the plan and will be responsible for any additional updates. Final drafts will be delivered to Teton County and relevant stakeholders. These deliverables will integrate with the business flow at Teton County and be compliant with Federal, State and local regulations.

Subtask 4.1: Write, Print, and Distribute Draft of the Plan

The project team will prepare a draft of Teton County's Multi-Hazard Mitigation Plan that will document the updated mitigation planning process and address the elements required by 44 CFR 201.6(d)(3).

ISC will assemble information, comments, and reports from the previous tasks, and from the work previously completed. Informational databases, graphics, and maps will also be included in the final plan update in order to visualize the geographic, functional, or systematic relationship between the loss estimation and the mitigation activity chosen. The implementation strategy and overall plan will be supported by a set of plan maintenance and updating procedures for the county. These procedures will be incorporated into the final report. The Plan Maintenance section will ensure that the document continues to be viable and is compliant with both state and federal directives.

To meet DMA 2000 requirements, the document will include a description of the process; a definition of the planning area identifying who was involved in the process, how they were involved, and methods of public participation that were employed; and a detailed description of the decision-making and prioritization process.

ISC will print the draft plan and distribute the copies to the planning committee members for review.

Subtask 4.2: Review the Documented Planning Process

The county planning committee will meet to review the draft of the plan. ISC will also review the final revisions from the planning team. Upon completion of the draft, a public forum will be held to gather input from the public.

Task 5: Finalize Plan, Plan Adoption, Submittal and Other Actions

ISC will incorporate all of the committee's final revisions and will print the plan to submit to Teton County within two (2) weeks after the receipt of final review comments. ISC will then submit copies of the final draft to the Idaho Bureau of Homeland Security for approval. The State will then submit the plan to FEMA. When approved by FEMA, the Teton County Mitigation Planning Committee will present the plan before the County Commissioners for formal adoption.

ISC will work with the committee until the plan has received formal approval and adoption.

SECTION IV. COST

The estimated cost for this project will be **\$4,000.00**. We welcome the opportunity to establish a collaborative working relationship with Teton County. The Project Pricing estimate provided is a Lump Sum (Not to Exceed) fee estimate for each task of the work described in this Scope of Work. ISC's hourly rate replicates a reasonable salary similar to that of a public employee plus benefits and the associated expenses of self-employment (i.e. overhead).

The title and number of ISC personnel assigned to a task will be dependent upon the unique nature of the task itself. With regard to the unique needs of our clients, ISC always provides a team that can technically and tactically complete the project in the most efficient and effective manner.

SECTION V. SCHEDULE

Proposed Project Timeline

The team recognizes that the key project timeline is created with the intention to foster full collaboration with the project's key stakeholders and principals to ensure that the project is completed in the most efficient manner possible. While various variables outside the control of ISC can influence the time it takes to complete a project, county mitigation updates typically take anywhere from nine to twelve months to complete. **However, because a lot of the work has been completed by county staff, ISC will complete the project in 6 months.** Our staff is capable and ready to initiate the project and will have the mitigation plan completed in order to meet the deadline and timely approval from FEMA. While we feel our proposed team can meet and/or exceed expectations, ISC is prepared to allocate additional resources and qualified staff to the project, if necessary.

The project timeline demonstrates ISC work plan and is arranged around a **six-month** schedule. Again, the timeline does not account for any unforeseen or uncontrollable delays to the project, nor does the timeline account for any expedience and efficiencies that may exist. The plan is executable within ten business days of the notice-to-proceed.

ISC will continue having a project management role while the Plan is undergoing State and FEMA review.

NOTE: ISC will, in conjunction with the Emergency Manager, help organize and facilitate the 1st "Annual Review and Update (Year 2) of the All-Hazard Mitigation Plan at no cost

Totals	3	4	3	5	9	0

- As of 9/8/2015: Total reported symptomatic WNV cases: **7**
- West Nile virus-related deaths: **0**
- Asymptomatic presumptive viremic blood donor†: **5**
- Total Reported Positive Counties: **13**

The data presented are (1) *provisional*, (2) *only* confirmed or probable symptomatic infections, (3) asymptomatic presumptive viremic blood donors identified by the American Red Cross and, (4) *only* Idaho residents.

† The American Red Cross routinely screens all donated blood for a variety of infectious agents, including WNV. All donated blood determined positive for WNV is discarded.

Every attempt is made to assure the accuracy of the information presented on the map and in the table. Numbers and dates presented here may change, based on completed investigations.

†Positive mosquito pools are noted by collection date; testing takes several days before results are available. Most mosquito abatement districts do not cover the entire county. To learn more, visit the link to 2015 Idaho Mosquito Abatement taxing districts:

Board of Teton County Commissioners

MINUTES: September 14, 2015

Commissioners' Meeting Room, 150 Courthouse Drive, Driggs, Idaho

- 9:00 AM Meeting Called to Order - Bill Leake, Chair (*Amendments to Agenda*)
- 9:00 AM PUBLIC HEARING - City of Victor de-annexation
- 9:30 AM **Open Mic** (*proceed to next agenda items if no speakers*)
- DEPARTMENT BUSINESS**
- PLANNING & BUILDING - Jason Boal, Planning Administrator
1. Teton Valley Lodge Site, Division 1, Insignificant Plat Amendment
 2. Land Use Code Process
 3. Housing Authority Meeting primer
 4. Planning and Zoning Commission Appointment
 5. Natural Resource Specialist
- PUBLIC WORKS - Darryl Johnson
1. Solid Waste - Saul Varela, Supervisor
 - a. Solid Waste Update – Saul Verela
 - b. Landfill Cap Update
 - c. Proposed Ordinance RE: Solid Waste & Recycling Collection, etc.
 2. Road & Bridge - Clay Smith, Supervisor
 3. Engineering
 - a. E5000S Reconstruction Update
 - b. W6000S Design Update
 - c. Badger Creek Inspections
- CLERK
1. Nov. 3 Election - Number of Ballots to Order
 2. Clerk's FY 2016 Budget Memo #7
 3. Certification of 2015 levies (for FY 2016)
- ADMINISTRATIVE BUSINESS** (*will be dealt with as time permits*)
1. Approve available minutes
 2. Other Business
 - a. Beer & Wine licenses
 - b. Certificates of Residency
 - c. PTO Extension requests
 - d. Search and Rescue disposal of personal property
 - e. Airport Noise
 3. Committee Reports
 4. Priorities Check-up
 5. Claims
- 12:00 PM ELECTED OFFICIAL & DEPARTMENT HEAD MEETING
- 2:15 PM PUBLIC HEARING FOR FY 2016 Fees & Resolution 2015-0914 adopting fee schedule
- 2:30 PM American Insurance - employee insurance renewals
- 3:30 PM Fair Board - Katie Salsbury
1. Report on 2015 Fair
 2. Fairgrounds maintenance
 3. Modifications to FY 2015 and FY 2016 Fair/Fairgrounds Budget
 4. Hiring new Fair Ground Administrator

COMMISSIONERS PRESENT: Bill Leake, Cindy Riegel, Kelly Park

OTHER ELECTED OFFICIALS PRESENT: Clerk Mary Lou Hansen, Prosecutor Kathy Spitzer

Chairman Leake called the meeting to order at 9:02 am and led the Pledge of Allegiance.

9:03 am **PUBLIC HEARING: Zoning for parcels de-annexed by City of Victor**

Planning Administrator Jason Boal said the City of Victor has de-annexed three parcels located on 1000 West just south of 7000 South and the county needs to assign zoning to those properties because they now fall within the county's jurisdiction. (The county has no role in a city's decision to annex or de-annex.) Mr. Boal said the properties are surrounded by A-2.5 zoning. The Planning & Zoning Commission has held a public hearing and has recommended that the properties be zoned A-2.5 (Attachment #1).

Chairman Leake opened the hearing for public comments. There was no one present wishing to testify so the public comment period was closed.

● **MOTION.** Having found that the proposed zone change is consistent with the Teton County Comprehensive Plan, Teton County Zoning Ordinances and the Victor Area of Impact Agreement, and having found that a public hearing was properly noticed and conducted according to Idaho State Statute, Commissioner Park made a motion to approve the proposed amendment that would assign the A-2.5 zoning district to the newly de-annexed parcels and add them to the Victor Area of Impact as presented in the application materials. Motion seconded by Commissioner Riegel and carried unanimously.

OPEN MIC

Shawn Hill of VARD spoke about the land use code update process.

Dave Hudasko of RAD Curbside said his company is currently on schedule with transition plans to become the county's exclusive solid waste collection & hauling contractor November 1.

PLANNING & BUILDING

TETON VALLEY LODGE SITE, DIVISION 1, INSIGNIFICANT PLAT AMENDMENT. Mr. Boal said the original plat for this development specified "common sewer areas." However, the current location of the septic field for the Peters home has no additional capacity to service an addition onto their home. In order to provide the needed capacity without running a new line across two other lots, the Peters have worked with Eastern Idaho Public Health to locate a new leachfield on their own lot. Mr. Boal said the county is typically not involved in the location or size of septic tanks and leachfields and is only involved with this application because the sewer areas were identified on the plat. (Attachment #2)

● **MOTION.** Commissioner Park made a motion to approve the Insignificant Plat Amendment to the Teton Valley Lodge Sites (Division 1) as requested by Marjorie Peters and recommended by staff. Motion seconded by Commissioner Riegel and carried unanimously.

LAND USE CODE REVISION. Mr. Boal said staff is continuing to update the draft code and is looking to hire a graphics consultant. He had previously asked the Board to provide answers to four specific questions regarding the update process but has received responses only from Commissioner Riegel (Attachment #3).

Chairman Leake provided his answers as follows: (1) He would like the Board to be involved, at a minimum, however the statute requires; (2) He agrees with Commissioner Riegel's comments about public outreach and wants to be certain that the public has a complete opportunity to understand the new ordinances long before the final public hearing; (3) He agrees with the specifics as outlined by Commissioner Riegel; (4) He will judge the end product according to whether or not it conflicts with the Comp Plan, although there is a lot of subjectivity involved in that decision.

Mr. Boal said he will provide a more detailed timeline. Commissioner Leake said he also plans to create a detailed timeline.

Commissioner Riegel said she has discussed the third party review with Mr. Boal and understands that the planning staff wants to receive the University of Idaho analysis in order to incorporate their suggestions into the public review draft. Mr. Boal said the U of I staff has worked with the county previously and is charging nothing for their review. He said everyone understands that the U of I review is not a full blown review of the entire code because the entire code is not yet complete and that there may be a need for additional Comp Plan analysis after the public review draft is complete.

HOUSING AUTHORITY. Mr. Boal said the findings of the 2014 housing survey were remarkably similar to the 2006 survey and he will briefly outline those findings at the Sept. 16 Affordable Housing meeting. He said the purpose of that meeting is to discuss the possible re-activation of the Housing Authority Commission, not to discuss how to solve the housing crisis.

PLANNING & ZONING COMMISSION APPOINTMENTS. Prosecutor Spitzer said state law requires PZC appointments to be a minimum 3-year term and that all of the county's PZC terms expire Sept. 30. This means the Board's August 24 motion to appoint Dave Hensel and Sara Johnston to serve until the Land Use Development code is complete was not valid; they must be appointed for a three year term. They could certainly resign before that new 3-year term is up. Furthermore, said Prosecutor Spitzer, the 3-year terms for seats held by David Breckenridge and Marlene Robson, who were appointed Sept. 9, 2013 in order to expand the PZC to a nine-member board, are also expiring Sept. 30.

● **MOTION.** Chairman Leake made a motion to appoint Dave Hensel and Sarah Johnston for new 3-year terms on the Planning & Zoning Commission. Motion seconded by Commissioner Riegel and carried, with Commissioner Park opposed.

Commissioner Park said he prefers returning to a 7-member PZC and believes the two newest members, Mr. Breckenridge and Ms. Robson, should be re-appointed. The Board will discuss those two seats, and the 7-member/9-member PZC question on September 25.

NATURAL RESOURCE SPECIALIST. Commissioner Riegel said the University of Idaho prefers that the local Extension Agent hired to replace former agent Ben Eborn not work as the county's Weed Supervisor. The new agent will definitely have an important role in weed education, but not in enforcement activities. The Board discussed the proposed job description and agreed that it accurately reflects the desired duties, but requested the title be changed to "Weed Supervisor/Natural Resource Specialist." The position will be located within the Planning Department, making it easier to interact with landowners who already frequent that office.

● **MOTION.** Commissioner Riegel made a motion to approve the new re-named position, which is a pay grade 8 with a hiring range of \$20.09-21.26, with the salary split 70% Weed Fund and 30% Planning Department. Motion seconded by Commissioner Park and carried unanimously. (Attachment #4)

PUBLIC WORKS

The Board reviewed the update memo provided by Public Works Director Darryl Johnson (Attachment #5).

SOLID WASTE. Supervisor Saul Varela reviewed his report (Attachment #6). Opening the transfer station to the public on 5 days per week rather than 3 has eliminated most of the Saturday congestion. He recommends planning for the future purchase of a new baler to eliminate the manual loading of cardboard and free up floor space within the recycling center. A new baler would cost about \$90,000. The Board asked Mr. Varela to provide a cost/benefit analysis of a new baler. They also requested a future discussion about long-range plans for the transfer station property and the possible relocation of the road and bridge facility.

Mr. Johnson said the landfill cap shaping and material placement methods have been modified with the concurrence of DEQ in order to keep the rehabilitation project on schedule for completion this year.

He said RAD is meeting their transition plan benchmarks and asked if the county should undertake any outreach efforts. RAD plans to mail a flyer to every postal patron in Teton County. However, Mr. Varela said most questions are coming from second homeowners who would not receive that mailing. If Mr. Johnson can obtain a list of customers within unincorporated Teton County from Voorhees, the county will send an informational letter to those customers.

The Board reviewed a draft ordinance recommended by Prosecutor Spitzer in order to give the county legal authority to enforce the exclusivity provisions of the new waste hauler contract. She said county ordinances do not require a public hearing unless they are related to land use. After this ordinance is approved by the Board, it will be published in the newspaper. The Board discussed several possible changes, including the fact that Driggs Mayor Hyrum Johnson has asked the county to cooperate with a future covered-load ordinance. Prosecutor Spitzer said this would not be the appropriate ordinance to address that problem. She will refine the proposed ordinance for further review and discussion by the Board.

ROAD & BRIDGE. Mr. Johnson said the Rammell Mountain Road reconstruction project is complete and the crew is now working on the drainage and re-construction of N3000W. The paving of E5000S is complete and the contractor is finishing the final punch list. The Army Corps of Engineers has withdrawn the county's application for W6000S but will re-open it after the county submits a wetland mitigation plan. The Corps has requested annual monitoring reports as required per the permits obtained when the two Badger Creek bridges were re-built by the County.

CLERK

The Board had no questions about the Clerk's FY 2016 Budget Memo #7 (Attachment #7).

● **MOTION.** Commissioner Park made a motion to approve Clerk Hansen's recommendation to order enough ballots for the November 3, 2015 election to accommodate 50% of the number of voters registered as of Sept. 15. Motion seconded by Commissioner Riegel and carried unanimously.

● **MOTION.** Commissioner Park made a motion to certify the 2015 levies for FY 2016 as presented by the Clerk. Motion seconded by Commissioner Riegel and carried unanimously. (Attachment #8)

ELECTED OFFICIAL & DEPARTMENT HEAD MEETING

Seven elected officials and five department heads discussed issues of mutual concern.

ADMINISTRATIVE BUSINESS

● **MOTION.** Commissioner Park made a motion to approve the minutes of August 24 and September 9 as presented. Motion seconded by Commissioner Riegel and carried unanimously.

● **MOTION.** Commissioner Riegel made a motion to approve the retail alcoholic beverage licenses for the Teton Valley Foundation Bridges to Change Movie Premiere and Friends of the Teton River Wild & Scenic Film Festival. Motion seconded by Commissioner Park and carried unanimously.

● **MOTION.** Commissioner Park made a motion to approve Certificates of Residency for Gabriel Hernandez, Ariel Martinez, Jose Ortiz and Leonardo Virginia. Motion seconded by Commissioner Riegel and carried unanimously.

● **MOTION.** Chairman Leake made a motion to approve the trade-in of two motorcycles for one, as well as trading in two snow machines to help purchase two new snow machines, all as requested by Search & Rescue. Motion seconded by Commissioner Riegel and carried unanimously. (Attachment #9)

PTO CARRYOVER REQUESTS. Clerk Hansen said several departments have requested approval for employees to carry over more than 80 hours of PTO into the new fiscal year (Attachment #10). This is allowed by county policy, if approved by the Board, but the same employee cannot be approved for PTO carryover in two consecutive years. Such approval usually includes a date by which the excess hours must be used. However,

since the Sheriff is still short of patrol deputies and dispatchers, and his budgets include sufficient funds to do so, she suggested the Board buy out the excess PTO hours for those employees. The Board discussed the current policy at length, wondering how to hold supervisors accountable for managing their employees' time off better and whether buying out PTO hours would be fair, or set a bad precedent. Clerk Hansen explained that previous Boards had included the possibility of PTO carryover in order to not penalize good employees who were unable to use their PTO through no fault of their own. In particular, she said, the 24/7 public safety employees were in a difficult position when staff shortages required significant overtime. Especially because the overtime is converted into comp time and county policy requires comp hours to be used before PTO hours. The Board decided to re-visit the PTO policy with the intent of eliminating PTO carryover provisions. This will also require re-visiting the policy requiring use of Comp Time hours before PTO hours.

● **MOTION.** Chairman Leake made a motion to approve the carryover of excess PTO hours for Greg Adams, Tammy Sasche, Troy Jones, Heather Frei, Blake Egbert, Clint Lemieux, Rachael Heuseveldt, Alicia Parsons, Blake Fullmer and Mitch Golden, with the condition that the excess hours be used by the end of the pay period including December 31. Motion seconded by Commissioner Park and carried unanimously.

AIRPORT NOISE. The Commissioners discussed correspondence from Niki Tischhauser complaining about excessive air traffic noise related to the Driggs airport (Attachment #11). Chairman Leake said he has explained to her that the airport is owned by the city and the county has no jurisdiction. Planning Administrator Jason Boal said the county's master plan includes a "navigation easement" applying to properties within a certain proximity to the airport. However, this complaint comes from a resident who doesn't live near the airport, so is more of a pilot issue, not an airport issue. Prosecutor Spitzer said she would need to do more research, but believes the county cannot regulate activities that take place in the air. Commissioner Riegel said air traffic-related noise is a well-documented problem and she doesn't want this complaint brushed off. She volunteered to contact the airport board or FAA if appropriate. Mr. Boal recommended contacting the Flight Standard District Office.

COMMITTEE REPORTS. Commissioner Riegel said she provided her report during the EODH meeting when she explained the University of Idaho process for replacing the Extension Agent and the new Weed Supervisor/Natural Resource Specialist position.

Chairman Leake attended the Sept. 8 meeting of the Eastern Idaho Community Action Partnership during which they toured facilities for senior citizens and low income families in Arco, Blackfoot and Idaho Falls. He met with the Mayors on Sept. 10.

PRIORITIES. The updated priorities list was briefly reviewed and discussed (Attachment #12). Commissioner Riegel suggested adding "educational needs assessment" to the list and said the Board should support overall educational excellence in the county.

● **MOTION.** Commissioner Riegel made a motion to approve the claims as presented, after receiving clarification regarding one Fair Board claim. Motion seconded by Commissioner Park and carried unanimously.

Impact Fees: Circulation Facilities ...230,000.00
TOTAL.....\$691,366.16

2:18 pm **PUBLIC HEARING: Fees for FY 2016**

Clerk Hansen said the public notice itemized the handful of changes being proposed to the county's fee schedule for FY 2016 (Attachment #13). The only actual increase is raising the public records request charge from \$20 to \$25 per hour, after the first two hours, which are free. The parcel-based Solid Waste User Fee will be a decrease to some property owners and a new fee for others. Chairman Park said he remembered the \$10 minimum solid waste tipping fee was intended to be reduced to \$5 after the landfill cap project was fully funded. However, no record of this intent could be found in the minutes. Clerk Hansen said lowering the fee would have an unknown impact on the solid waste budget and pointed out that a fee decrease could be approved at any time, without a public hearing. The Board will discuss that possibility at a future meeting.

Chairman Leake said no public persons were present to discuss the fee schedule.

● **MOTION.** Commissioner Riegel made a motion to approve Resolution 2015-0914 adopting the fee schedule effective October 1, 2016. Motion seconded by Chairman Leake and carried unanimously. (Attachment #14)

EMPLOYEE INSURANCE

Travis Argyle of American Insurance discussed the annual renewal of the county's health insurance plan. Regence will not have definite rates until after September 30, but is currently estimating an overall increase of 10%, based upon the past year of health history of insured county employees and dependants. He pointed out that the county's insurance premiums had increased an average of 7.54% per year during the past few years compared to national average increases of 9-12% per year. The Board discussed whether it would be worthwhile to obtain bids from other insurance companies. They decided it would probably not make much difference in the long run since the county's overall health history would be evaluated by any future insurer who would most likely compute similar rates. Mr. Argyle will bring final renewal rates on October 13. The county's annual all-employee meeting will be held December 3 and will mark the start of the annual open enrollment period.

FAIR BOARD

President Katie Salsbury reviewed her year-end recap (Attachment #16). She said the fairgrounds were heavily used this summer and the fair was a great success, with increased attendance, awareness and participation (Attachment #16). The Fair Board is wholeheartedly committed to developing the fairgrounds into a year-round facility to be used to help preserve and promote the county's western heritage and rural traditions.

However, increased usage and improved maintenance have resulted in a significant change to the fairgrounds budget, causing the Fair Board to realize that their current business model probably will not produce enough funds to hire a part time Fairgrounds Administrator as approved for FY 2016. Nonetheless this position is necessary. Therefore, the Fair Board is proposing to allow camping and horse boarding at the campground the summer of 2016 in order to raise sufficient funds for a staff person. Ms. Salsbury said there is a big need for horse boarding, which is not offered by any private facility, and that camping is already included in the fairgrounds master plan.

● **MOTION.** Commissioner Riegel made a motion to approve the advertising and hiring of a 19-hour per week Fairgrounds Administrator at pay grade 6. Motion seconded by Commissioner Park and carried unanimously. (Attachment #17)

Ms. Salsbury reviewed the current status of their FY 2015 budgets and received approval to purchase a dust control product for winter use at the arena and additional signs for the fairgrounds. Her proposed changes to the FY 2016 budget will be discussed after the close-out of the current year.

MAINTENANCE. The Board reviewed the Building Official's memo regarding maintenance needs at the fairgrounds (Attachment #18). Ms. Salsbury said the wood burning stove is still being used and should be kept if possible. The Board asked County Executive Assistant Holly Wolgamott to follow up with Mr. Davis.

● MOTION. At 5:33 pm Chairman Leake made a motion to recess until 9 am on Wednesday, September 16 at which time the new parcel-based solid waste user fee and necessary outreach efforts will be discussed. Motion seconded by Commissioner Riegel and carried unanimously.

MINUTES: September 16, 2015 continuation

Chairman Leake called the recessed meeting back to order at 9:02 am.

COMMISSIONERS PRESENT: Bill Leake, Cindy Riegel, Kelly Park

OTHER ELECTED OFFICIALS PRESENT: Clerk Mary Lou Hansen, Assessor Bonnie Beard

PARCELS

Chairman Leake said the Board needs a better understanding of how parcels are defined and tracked in relation to the county's new \$60 per parcel Solid Waste User Fee (SWUF). Planning Administrator Jason Boal said that earlier in the meeting he had begun explaining the difference between a "parcel" as tracked by the Assessor and a "buildable parcel" as tracked by the Planning Department. However, it became apparent during that discussion that the Assessor's expertise was needed for further clarification.

Assessor Beard said parcels are defined by a legal description as it appears within a recorded deed. If a single deed includes multiple legal descriptions, she tracks a separate parcel for each legal description. If the owner of multiple adjacent parcels wants to combine those parcels into a single parcel, the owner must obtain and record a new survey/legal description. (State statute was changed recently to eliminate a previous long-standing requirement that property within different Sections must be tracked via two different parcels, even if the properties were adjacent.)

Assessor Beard stressed that tax numbers/legal descriptions are not the same thing as parcel numbers, which are the RP numbers that appear on valuation and tax notices. This can become quite confusing since a single parcel may have more than one tax number and a single tax number may refer to more than one parcel. The group agreed that it was critical for everyone to use the correct terminology when discussing these matters with constituents.

When a property owner wants to initiate a development proposal or obtain a building permit, Mr. Boal said his staff bases decisions on information found in the recorded deeds and does not refer to parcel numbers. He said the history of lot splits, boundary adjustments and other factors determine whether a specific lot is "buildable" and what type of development or subdivision may be allowed on a particular piece of property. If the owner of multiple adjacent lots within a platted subdivision wants to combine those lots into a single lot, they must follow a formal plat amendment process which currently requires a \$1,700 fee and three public hearings. No survey is needed.

The planning department is also involved if a property owner wants to combine parcels not within a subdivision by drawing new internal boundaries. The property owner must use the Boundary Adjustment process, which costs \$406 for the application and survey review. They must also obtain a new survey and legal description.

The planning department is not involved if the owner of multiple adjacent parcels not in a subdivision wants to combine those lots into a single parcel. This circumstance requires the property owner to obtain and record a new survey/legal description, which the Assessor can then use to update her records with no additional fee.

The \$60 per parcel SWUF is replacing the previous structure-based SWUF, which has been assessed on about 6,000 parcels for many years. The owners of those parcels will notice a significant decrease in their SWUF fee on the November tax notices. However, the owners of the other 9,000 parcels in the county will notice a SWUF on their tax bills for the first time ever.

The Board discussed how best to educate taxpayers regarding: (1) Changes to the Solid Waste User Fee; and (2) Options for owners of multiple parcels wishing to reduce the number of such fees paid. They agreed that Ms. Wolgamott should create a flyer or brochure to be inserted into the envelopes with the November tax notices. Ms. Wolgamott also agreed to write a press release regarding the changes to the SWUF to be sent to the *Teton Valley News*.

● **MOTION.** At 9:55 am Commissioner Park made a motion to adjourn. Motion seconded by Commissioner Riegel and carried unanimously.

Teton County Commissioners Housing Authority Work Session

Minutes: September 16, 2015

Commissioners' Meeting Room, 150 Courthouse Drive, Driggs, Idaho

AGENDA

1. Review Housing Study/Housing Needs Assessment
 2. Role of a Housing Authority
 3. Where to do we go from here
 4. Other Business
 5. Adjournment
-

COMMISSIONERS PRESENT: Kelly Park, Bill Leake, Cindy Riegel

OTHER STAFF AND COMMUNITY REPRESENTATIVES PRESENT: Holly Wolgamott; County Executive Assistant, Jason Boal; County Planning Administrator, Todd Woolstenhulme; Construction Manager Huntsman Springs, Debbie and Allen Allred; Investors in Teton Valley housing, Brian McDermott; Teton Valley Business Development Center, Monte Woolstenhulme; Teton Valley Schools Superintendent, Glen Vitucci; former Teton Valley Housing Authority Commissioner, Robert Emerson; former Teton Valley Housing Authority employee, Ashley Koehler; City of Driggs Planning and Zoning Administrator, Shawn Hill; VARD Executive Director, Doug Self; City of Driggs Community Development Director, Jeff Potter; City of Victor City Councilman, Ken Dunn; Sage Realty, Alex Norton; Teton County Wyoming Joint-Long Range Planner.

Chairman Leake called the meeting to order at 10:00 am.

1. **REVIEW OF HOUSING STUDY/HOUSING NEEDS ASSESSMENT:** Jason Boal began the meeting with a presentation detailing the history of the Housing Authority Commission (HAC) established by resolution by the Board of County Commissioners in 2007. Findings of housing studies and housing needs assessments used to justify the HAC's original inception were presented. As a result of the housing market crash in 2008, the HAC lost its steam and its board members were not reappointed at the end of their terms. The HAC has not been an active commission since that time. Mr. Boal presented results from similar housing studies completed in 2014 which indicated an obvious need to consider the re-establishment of the HAC.
2. **ROLE OF THE HOUSING AUTHORITY:** The role of the HAC was discussed however it was concluded that the three cities, Victor, Driggs, and Tetonia, along with Teton County should meet to create a desired role and structure of the HAC. It was proposed that an employee that reports to the HAC would need to be hired to help carry out the goals and objectives of the commission. Funding needs were discussed for the HAC which include program/project funding and operational funding for a staff person, the former being less viable.

Possible funding options for the HAC were discussed. Shawn Hill explained current options to include: Idaho Housing Finance, Housing and Urban Development (HUD), US Department of Agriculture (USDA), Habitat for Humanity, and Grand Targhee Ski Resort. Doug Self also commented that the three cities could amend their Resort Tax Ordinances to allow some of that money to be used for the HAC.

Robert Emerson and Glen Vitucci reported that there are still funds available from donations used to establish the HAC in 2007 by the Cities of Driggs and Victor along with Teton County, Idaho. The county budgeted \$5000 for the reestablishment of the HAC in FY 2016. Also, the Teton County Trust holds funds donated through the Tin Cup Challenge and by Alliance Title and Escrow Cooperation in the amount of \$13,814 which could be used for current HAC needs.

Commissioner Leake proposed that transportation issues be included as part of the Housing Authority's mission as the two issues are so closely related. After some discussion, it was the consensus of the group to make transportation an integral part of addressing housing needs in the county.

3. **WHERE WE GO FROM HERE:** Shawn Hill felt that we should use this year to develop a long term housing plan. He emphasized the need to adopt the Housing Action Plan which included language on how to reinstate the HAC. He warned that taking a shotgun approach without a clear plan could completely miss the mark. Commissioner Park proposed bringing the HAC back, but proceeding with clearly defined steps as Mr. Hill described to ensure a successful commission within the next five years. Mr. Allred felt that we did not have five years, that this is going to happen with or without us, and that we need to act now by first establishing the HAC.

Commissioner Riegel supported the need for the HAC but felt it should be a collaborative effort between the cities of Victor, Driggs, and Teton, Idaho and Teton County, Wyoming. She felt that Teton County cities would take a larger role in the commission. Commissioner Leake questioned if the HAC should be established by the cities and not the county. Mr. Boal felt that the County could establish it but it would function as a separate entity from the county and could include representatives from the cities. Commissioner Leake suggested that Teton County Prosecutor, Kathy Spitzer, present all options in re-establishing the HAC to the Board of County Commissioners (BoCC) at their next meeting.

Next Steps:

Step 1: County Prosecutor, Kathy Spitzer will brief the BoCC on the process of re-establishing the HAC at the next BoCC meeting on September 25th, including the possibility of a joint County/City HAC

Step 2: A meeting will be held with the City of Victor, City of Driggs, City of Teton, Idaho to establish the goals and criteria of the HAC.

Step 3: The HAC will be officially re-established at a BoCC meeting in October of 2015.

Step 4: The HAC will likely be tasked with hiring a consultant to create a job description for a HAC employee and criteria for the position. The consultant could also create a work plan for the HAC board and staff and identify funding sources for operations and projects.

4. **OTHER BUSINESS:** Commissioner Riegel stated that the Idaho Housing and Finance Association (IHFA) is hosting a Conference on Housing and Economic Development in Boise on October 6th – 7th. She suggested that someone representing Teton County, Idaho attend. Brian McDermott offered to attend if funding options were available to pay for his expenses. Commissioner Park indicated that he might be able to attend as well. Commissioner Riegel felt that travel expenses could be provided by the BoCC budget.

● **MOTION.** Commissioner Riegel made a motion to send a County representative to the Conference on Housing and Economic Development in Boise, ID on October 6th – 7th, 2015 to be funded out of the Board of County Commissioners' contingency account, not to exceed \$750. Motion seconded by Commissioner Park and carried unanimously.

● **MOTION AMMENDMENT.** Commissioner Leake moved to amend the previous motion to send a County representative to the Conference on Housing and Economic Development in Boise, ID on October 6th – 7th, 2015 to be funded out of the Board of County Commissioners' Travel and Training Expense account, not to exceed \$750. Motion seconded by Commissioner Park and carried unanimously.

5. **ADJOURNMENT**

● **MOTION.** At 12:16 pm Chairman Leake made a motion to adjourn the meeting. Motion seconded by Commissioner Park and carried.

Bill Leake, Chairman

From: Kathy Spitzer
Re: Housing Authority
Date: September 25, 2015

The Housing Authority that was created in 2007. It has not functioned for the past few years but I believe there is money in its fund. Because the Housing Authority is not an agency of the County, but an independent body, the County has not authority over their funds unless the authority of the Commission is terminated. Because the Authority determined years ago that there was no longer a need for the Housing Authority, it was essentially terminated without the proper resolution by the Board of County Commissioners. The Code does not mention a "dormant" commission, it either has active Commissioners, or it is terminated by the County because it is no longer necessary § 31-4206 states that any funds received by the County after termination "shall be dedicated to the extension, maintenance and promotion of the public parks system of said county for the benefit and welfare of the county." The money that is currently in the housing fund could be used for parks, the ice rink, bike paths, etc. If the County later determined to set up a Housing Authority, § 31-4209 allows the County to donate money.

My recommendation is that you meet with the Cities and available previous Housing Authority Commissioners to discuss the need for a Housing Authority, the best method for creating a stable Housing Authority, the qualifications of its members, its funding capabilities, etc. The Code allows for Counties and Cities to create a Housing Authority, or to do so jointly with the Cities.

§ 31-4205. Creation of Housing Authorities

Nothing in this act shall prevent governing bodies from jointly creating by resolution an independent public body corporate and politic to carry out and effectuate the purposes and provisions of this act and to serve the best interests of their respective citizenry.

Other than this one mention of joint creation there is nothing else in the Idaho Code that mentions whether the jointly created Commission would operate under Title 50, Chapter 19 or Title 31, Chapter 42. The two Chapters are very similar, but the entity to whom the Commission reports would be different. If it were a joint appointment you would want to declare by resolution which code sections the Commission would operate under, Title 50, Chapter 19 or Title 31, Chapter 42.

Hi Holly,

Thanks for getting back to me. I got a little blurb from our Editor to let you know what we are up to. Let me know if you need anything else.

Sage

Teton Valley Magazine, originally known as *Teton Valley Top to Bottom* (the name was changed in 2007), has been “Celebrating Life on the West Slope of the Tetons” since 1997. The magazine is published by Driggs-based Powder Mountain Press (PMP)—their office is located on the third floor of the Coulter Building—and it is written, photographed, and produced by locals. Among the magazine’s many regular contributors is Teton County GIS coordinator Rob Marin. During the nearly 20 years of publication, dozens of history pieces have been featured in the magazine, ranging from stories about the mountain men and the history of the railroad to early day midwives and the coal-mining settlement of Sam. In celebration of the centennial of Teton County, PMP weekly is posting two of these previously published stories with photos on its website, www.tetonvalleymagazine.com. They will continue doing this through January 26, 2016, which is one year to the day since the kickoff of the centennial in 2015. (The act creating the county was signed in Boise on January 26, 1915.) PMP has asked if the County would be willing to add a button to its home page linking visitors to these history stories at the *Teton Valley Magazine* website. They wish to get the word out in as many ways as possible so that a greater number of residents and visitors can enjoy these stories and become better acquainted with the valley’s rich history.

On Sep 17, 2015, at 10:27 AM, Holly Wolgamott <hwolgamott@co.teton.id.us> wrote:

Good morning Sage,

I’m sorry for the delayed response but I wanted to ask the county commissioners about this before acting on it. They seem to be in favor of having a link on our website but want to bring it up for official approval at their next meeting on September 25th. I will put it on our agenda for that purpose. In the meantime, can you please provide a little more detail on the project? I’m sure they will ask me at the meeting, so a brief summary of what is planned would be great!

Thanks very much,

would be available for equity raises. Chairman Leake wondered if the COLA raise should be less for employees already earning close to the market rate. Clerk Hansen said the COLA raise would increase the overall payroll by about \$35,000, which equals 1.2% of the county's gross payroll. The last across-the-board COLA raise for County employees was awarded October 2008.

● **MOTION.** Chairman Leake made a motion to approve a 50 cents per hour raise for each employee for FY 2016 and to adjust the salary schedule by 1% for FY 2016. Motion seconded by Commissioner Riegel and carried. Commissioner Park abstained, saying he would prefer to make all decisions regarding employee raises later in the budget process, similar to previous years.

The Board asked the Clerk to insert a single \$285,000 budget placeholder into the first draft budget and include extra time in the budget work sessions for further discussion about the county's organizational needs and alignment. They also asked that time be scheduled to discuss the Housing Authority Commission with former chairman Glenn Vitucci.

NON-PROFIT FUNDING REQUESTS. The Board discussed Prosecutor Spitzer's memo regarding non-profit funding (see pp. 10-14 of Attachment #7). She said county funds should only be spent on activities mentioned in the code or enumerated within specific county duties. This could include the TRPTA bus system, senior center, animal shelter and American Legion (Veterans Memorial).

Chairman Leake said a county policy was needed regarding non-profit funding. He believes the county should have contracts with any non-profit organizations receiving county money in order to clearly identify the specific benefit the county receives in exchange for the funding.

The Board decided that any non-profit group requesting funding for activities related to economic development or recreation should connect their request to goals identified in the county's Economic Development Plan or the county's Recreation-Public Access Plan. However, Prosecutor Spitzer suggested that the Board should first decide how to implement those plans and then either hire an employee, or contract with a non-profit, to perform specific tasks desired. The Board acknowledged the need to decide priority rankings for items in both plans.

Although she believes the county's social service non-profits (such as the Food Bank, Mental Health Coalition, Family Safety Network) provide valuable services, Prosecutor Spitzer can find no statute giving the county authority to provide funding to such groups.

Clerk Hansen said the county is obligated to provide indigent assistance and managed the food bank when she first took office. She said TVCR provides recycling research, outreach and education that would otherwise not occur, or else would be performed by county staff.

Commissioner Riegel said there are 40 non-profit organizations in the county and only 10 of them know the county might be willing to provide funding. The county obviously must draw a line regarding where to spend money. Chairman Leake said the county spends a lot of money on the Fair, which is an activity that benefits a small group of people. Similarly, the ice rink benefits a small group of people. He said the county needs to invest in the future and believes that kids need activities and facilities. Although things evolve over time, he said state statutes haven't been changed to keep up with the changes.

The Board decided to delay a decision regarding FY 2015 funding for the Geotourism Center until June 8. At that time, they will meet with all the non-profits that have requested county funding. Clerk Hansen will provide copies of all current non-profit contracts, along with a list of every Teton County non-profit, for review at that meeting.

AMBULANCE SERVICE DISTRICT

● **MOTION** At 1:10 pm Commissioner Park made a motion to recess the Board of County Commission meeting and convene as the Ambulance Service District. Motion seconded by Commissioner Riegel and carried. (See Attachment #8 for the Draft Ambulance Service District minutes.)

MINUTES: June 23, 2015 continuation

COMMISSIONERS PRESENT: Bill Leake, Cindy Riegel, Kelly Park

OTHER ELECTED OFFICIALS PRESENT: Clerk Mary Lou Hansen

Chairman Leake re-convened the meeting at 9:04 am.

INFORMATION TECHNOLOGY. IT Coordinator Dawn Felchle provided a second draft budget for review. She has reduced the first draft IT budget request by over \$30,000, partially due to the proposed purchase of a new county-wide Microsoft Office license. Ms. Felchle and future IT Coordinator Greg Adams agreed that buying all new non-Sheriff-related computers from a single IT budget provided the best possible oversight and cost controls. Clerk Hansen will have to be sure that new computer purchase expenses are reimbursed by the appropriate funds if they receive dedicated revenues. Clerk Hansen is analyzing the copy machine/printer/scanner requests and will make a recommendation regarding those purchases on July 13.

CLERK Hansen reviewed her budgets. The Election budget is about \$10,000 higher due to new legislation which created a March Presidential Primary. State funds will reimburse the county for all expenses related to this new election. She will adjust the Indigent Fund revenue projection to include \$40,000 of Remaining Cash. She is requesting an additional 2 hours per week of Court Clerk time.

NON-PROFIT FUNDING. The Board discussed and made preliminary decisions regarding the non-profit requests presented June 8. They approved the Senior Center, TRPTA and American Legion requests as allowed by state statute. They said the Mental Health Coalition and Food Pantry qualify for county funding because they provide services to senior citizens. They decided the County should contract with Teton Valley Community Recycling for \$5,000 worth of Information, Education & grant writing services paid for out of the Solid Waste fund. The Board may increase the TVBDC contract for implementation of the county's Economic Development plan to \$35,000, with \$10,000 earmarked for implementation of the tourism component of that plan. The Family Safety Network will be contracted for \$5,000 worth of services and the county will provide up to \$3,000 worth of snow moving services for the 2016 Snowfest.

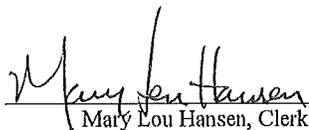

Teton Valley Foundation's request for \$60,000 for the ice rink was discussed at length. Commissioners Park and Riegel do not support a donation. Commissioner Riegel believes the ice rink is a very valuable amenity and wonderful asset, but said taxpayers had not voted to support an ice rink. Chairman Leake said recreation is very important and keeps kids out of trouble. He noted that the ice rink was included in the county's recreation plan. Chairman Leake predicted that community members would pursue creation of a Recreation District if the county and/or cities don't begin implementing the Recreation & Public Access Plan.

COMMISSIONER PRIORITIES. The Board discussed the \$285,000 placeholder inserted into the budget pursuant to Chairman Leake's April 27 memo. They decided to eliminate the placeholder for implementation of the Recreation Plan and to reduce the animal control and weed supervisor placeholder amounts.

● **MOTION.** At 11:44 am Commissioner Park made a motion to adjourn the meeting. Motion seconded by Commissioner Riegel and carried.

Family Safety Network Agreement

This Agreement is made by and between Teton County, Idaho (hereinafter the County), and the **Family Safety Network**.

RECITALS

Whereas, the County supports the Family Safety Network in their efforts to provide free, confidential support to victims of domestic violence, sexual assault and child abuse in Teton County; and

Whereas, the Family Safety Network performs this service in a manner that reduces the burden on our Sheriff's Office, Court System and other areas which directly or indirectly cost the county money; and

Whereas, the Family Safety Network will report annually to the Board of County Commissioners the extent to which the funds provided by the county were used to attain grants and other funding, manage administrative aspects of the entity, and defer offenders to seek help to prevent future abuse in order to achieve their goals.

~~Whereas, the Family Safety Network has asked the County to provide financial assistance in order to help achieve their goals.~~

TERMS AND CONDITIONS

Therefore, for mutual consideration, the County does hereby agree with the Family Safety Network that it shall contribute the sum of ~~Five Thousand Two Thousand Five Hundred~~ Dollars (\$5,000) during the 201~~65~~ fiscal year to the Family Safety Network to assist Teton County seniors and other residents who are victims of domestic violence, sexual assault or child abuse;

The County's contribution will be made about January 31, 201~~65~~ in the form of a check payable to the Family Safety Network;

~~The Family Safety Network shall use the contributed sum exclusively for the stated purposes of assisting Teton County residents who are victims of domestic violence, sexual assault or child abuse;~~

The Family Safety Network understands that this is a one-time contribution and the County makes no promises or representations that such money will be available in any future fiscal years;

The Family Safety Network agrees to provide an annual financial report for the previous fiscal year no later than June 1, 201~~65~~; and

The Family Safety Network understands that it is not an employee of Teton County for any purpose, and that the County is not making any promises or representations, entering into any partnerships or other agreements, but is simply making a cash donation.

**CONTRACT AGREEMENT FOR TETON COUNTY
ANIMAL SHELTER SERVICES**

Agreement is hereby made between Teton County (County) and the **Teton Valley Community Animal Shelter (TVCAS)**, formerly known as Targhee Animal Shelter, Inc., an Idaho Non-Profit Corporation, as set forth below according to the following terms and conditions:

1. Services provided by TVCAS – Lost or Stray Animals

- A. TVCAS shall operate an animal shelter for care and shelter of stray, lost, abandoned and neglected dogs and cats. The shelter shall be open to the public and shall accept stray, lost or abandoned dogs and cats from 12 pm to 4 pm, Tuesday through Friday and 10 am – 4 pm Saturday, except in cases of inclement weather or natural disaster.
- B. Personnel will answer phone calls during business hours as well as have an emergency contact person on the answering machine for after hours (evenings after 4pm and Sunday and Monday all day and night.)
- C. TVCAS staff shall:
 - 1. Attempt to notify owners/guardians of lost or stray animals personally by telephone or by mail, as soon as possible if the owner/guardian is known or can be ascertained with reasonable effort; and
 - 2. Check local newspapers having general circulation in the community to determine if an animal is advertised which answers the description of an animal in the shelter.
- D. TVCAS shall make every effort to provide proper shelter, food, water, care and humane treatment for all strays for a holding period of ten (10) business days. An injured stray may be held at a veterinary clinic within Teton County if TVCAS is unable, despite good faith efforts, to provide shelter, food, water, care and humane treatment for the animal. After the holding period, TVCAS shall determine the disposition of animals – euthanasia or holding for an additional period for possible placement with responsible owners/guardians.
- E. Provide the holding facilities and care for stray canine and feline rabies suspects pending final determination of the disease, up to the maximum number of animals the facility can hold as determined by safe, quarantine space within the facility.
- F. Provide redemption, during business hours, of stray animals. An owner/guardian redeeming an animal must meet the following requirements:
 - 1. Provide proof of current license, when applicable.
 - 2. Pay TVCAS the established redemption and boarding fees:
 - a. If animals are in the shelter for one night a \$20 boarding fee will be assessed.
 - b. If it is a repeat pick-up and/or admission, there is an additional fee of \$25 for the second offense, \$50 for third offense and \$100 for each additional offense thereafter.

- c. A boarding fee of \$20 per night will be added for each day after notification of owner in person or by mail, personal service, or other applicable statutory method.
 - 3. TVCAS may establish revised redemption and boarding fees, as appropriate, during the period of this contract and forward notification to Teton County as specified in Section 9.
- G. Provide adoption services for animals unclaimed by owners. Evaluate the animals for temperament and health prior to adoption. Provide the following health services to be included in the adoption fee charged to the prospective new owner/guardian:
 - 1. For Dogs:
 - a. Spay/neuter – the animal must be at least 2 months of age and/or at least 2 pounds in weight as recommended by the local veterinarians in Teton County, ID.
 - b. First DHLPP Inoculation
 - c. Heartworm test – only performed on animals of unknown origin or when the origin can be definitively determined to be out of country.
 - d. De-worm for Hook and Round worms
 - 2. For Cats:
 - a. Spay/neuter – see restrictions above
 - b. First FVRCP Inoculation
 - c. Feline Leukemia/FIV test
 - d. De-worm for Hook and Round worms

It is understood by the parties that TVCAS currently provides the adoption services described in this paragraph (G), and that the provision of these services constitutes an important part of the consideration for the decision by the County to enter into this agreement. However, failure by TVCAS to provide any of the services described in this paragraph (G) shall not, by itself, be grounds for termination of this agreement.

2. Payment by County for Animal Control and Adoption Services

In exchange for the services set forth above, the County shall pay to TVCAS, in monthly installments, the sums identified as follows for coming fiscal year:

<u>Year</u>	<u>Annual Contract</u>	<u>Monthly payments</u>
Fiscal 2016 5	\$9,600	\$800

It is expressly understood that TVCAS may charge prospective owners/guardians an adoption fee, and that payment by the County of the amount set forth in this paragraph is not intended to cover the cost of the adoption services offered by TVCAS.

3. No Exclusivity

Nothing in the Agreement limits TVCAS from establishing, governing and providing other services to the general public. However, it is specifically understood, by the parties hereto, that only the above-referred to services are required to be performed in order for TVCAS to be designated as the animal shelter agency and obtain payment specified above.

4. Insurance/Limitation of Liability/Indemnity

The County shall not be liable for any loss, injury, death, or damage to persons or property which at any time may be suffered or sustained by TVCAS or by any persons whosever may at any time is acting as an agent or employee of TVCAS, whether such loss, injury, death or damage shall be caused by or in any way result from or arise out of any act, omission or negligence of TVCAS, or shall result from or be caused by any other matter or thing whether of the same kind as or of a different kind than the matters or things above set forth. TVCAS shall indemnify County against all claims, liability, loss or damages whatsoever on account of any such loss, injury, death, or damage. This paragraph shall not apply to loss, injury, death, or damage arising by reason of the negligence or misconduct of County, its agents or employees.

5. Communications between the Parties

All communications related to this Agreement shall be to the persons listed below or to such other persons that the parties may specify in writing:

TVCAS: Keith Gnagey, President
208-354-3499, grants@tvshelter.org

Teton County: Mary Lou Hansen, Clerk, clerk@co.teton.id.us
Kathy Spitzer, Prosecutor, kspitzer@co.teton.id.us

6. Savings Clause/Entire Agreement

This writing constitutes the entire Agreement between the parties with respect to the subject matter described herein and no statement, representation or promise with regard to this Agreement shall be binding upon the parties unless in writing and signed by both parties. The captions, lettering and numbering contained in this Agreement are for the convenience of the parties and shall have no independent meaning. This Agreement is the product of informed negotiations by and between the parties, both of whom are represented by counsel. This Agreement shall not be construed as having been drafted by or against any party.

RESOLUTION 2015-0925A
QUARTERLY BUDGET TRANSFERS: Q4 FY 2015

WHEREAS, on August 25, 2014 the Board of County Commissioners adopted the Teton County Budget for Fiscal Year 2015; and

WHEREAS, since that date the specific needs and expenses within several Funds have changed; and

WHEREAS, since that date unanticipated revenues may have become available; and

WHEREAS, since that date monies budgeted to be spent during the previous fiscal year were not spent, resulting in unanticipated cash carryover into the current fiscal year; and

WHEREAS, pursuant to Idaho Code 31 Chapter 16, the Teton County Auditor may not issue, and the Teton County Board of Commissioners may not approve, any claim for any expenditure in excess of a budget appropriation; and

WHEREAS, specific accounts within several Funds do not have sufficient amounts appropriated, while other specific accounts within those Funds have excess amounts appropriated.

NOW, THEREFORE, BE IT UNANIMOUSLY RESOLVED that the Board of Teton County Commissioners do hereby approve the following transfers of budget appropriations as itemized in Exhibit A.

APPROVED by the Board of Teton County Commissioners on September 25, 2015.
