

Teton County Idaho Commissioners' Meeting Agenda
Monday November 9, 2015 9:00 am
150 Courthouse Drive, Driggs, ID – 1st Floor Meeting Room

9:00 Meeting Called to Order – Cindy Riegel,
Commissioner *Amendments to Agenda*

9:00 RECREATION PLANNER POSITION – Jason Boal

1. Review of Recreation Planner Position

9:30 Open Mic

(if no speakers, go to next agenda items)

DEPARTMENT BUSINESS

9:45 TETON CO JUVENILE PROBATION – Renee Leidorf

1. JPO Quarterly Report
Public Works – Darryl Johnson
 1. Solid Waste – Saul Varela, Supervisor
 - a. Transfer Station Update
 - b. Landfill Update
 - c. Landfill Cap Update
 - d. Waste & Recycling Collection Contract
 - e. Solid Waste Fee – Public Notice
 2. Road & Bridge – Clay Smith, Supervisor
 - a. Road & Bridge Crews
 - b. Water Tank Purchase
 - c. IWORQ Update
 3. Engineering
 - a. LHTAC - Local Rural Highway Investment Program (LRHIP)
 - b. FY 2017 Local Highway Safety Improvement Program
 4. Fairgrounds Administrator
 5. Facilities
 - a. Courthouse Masonry Repairs
 - b. Eagle Sculpture

Information Technology– Greg Adams

1. County Password Policy
2. Grant Funds Expenditure Approval

PROSECUTING ATTORNEY – Kathy Spitzer

1. Non-Motorized Ordinance

Clerk– Mary Lou Hansen

1. Canvass Results of Nov. 3rd Election
2. Agenda for Dec. 3 Employee Meeting
3. Dental Insurance Renewal

11:30 – 12:30 ELECTED OFFICIAL AND DEPARTMENT HEAD MEETING

1. Policy Review

12:30 – 2:00 LUNCH with Rudd & Co. auditors

GIS, Rob Marin

1. GIS Update

ADMINISTRATIVE BUSINESS (*will be dealt with as time permits*)

1. Approve Available Minutes
2. Other Business
 - a. Liquor License Reform
 - b. E911 Grant
 - c. Social Media Policy
 - d. Solid Waste Fee PR Discussion
 - e. Pocatello Regional Postal Center Push to Re-Open
 - f. Priorities Check-Up
3. Committee Reports
4. Claims
5. Executive Session for Personnel Matters per IC74-206(1)(a) & (b)

FROM: Rob Marin, GIS Coordinator
TO: Board of County Commissioners
RE: **GIS Update**
DATE: October 30, 2015
MEETING: November 9, 2015

Parcel Data Rectification Project / Greenwood Mapping Contract

In 2013, the BOCC approved a parcel data improvement effort, based on a budget of \$75,000 divided equally over three fiscal years (subject to re-approval each year). The plan was to employ Greenwood Mapping (of Wilson, Wyoming) to draw parcels according to original surveys and deeds, with the goal of improving parcel accuracy throughout Teton County. The GIS coordinator also contributed to this county-wide re-mapping effort, while simultaneously performing day-to-day parcel updates (ongoing lot splits, boundary adjustments, and plat amendments). The rationale was to leverage the contractor's cadastral mapping expertise and advice, while allowing the GIS Coordinator to focus more on daily GIS services. If the one-person GIS staff of Teton County had attempted this effort alone, the timeframe for completion may have exceeded eight years, and routine mapping support to the County would have suffered.

Of the \$25,000 allocated to the GIS Department's Contracting and Services Account for FY 2015, the County paid just over \$20,000 to Greenwood Mapping for parcel rectification work. A GIS intern was hired using \$2,000 of these funds for an unrelated short-term building-mapping project approved by the BOCC. The remaining funds were spent on a one-time software purchase (the ArcGIS Spatial Analyst Extension), also approved by the BOCC.

As of October, 2015, approximately 12,180 parcels have been reviewed and rectified as part of the parcel project, out of a total of 13,825. This represents 88% of parcels in the county. See attached map. All three cities have been completed, along with the more heavily developed areas between them. These were the priority areas identified by the BOCC prior to the 2014 election. See attached before and after examples, to get an idea of how far off some of our parcels were. Also included are a couple of examples of deed overlap and missing legal documentation.

Just over 70% of the rectified parcel work was performed by Greenwood Mapping, with the remainder performed by the GIS Coordinator. **An estimated 1,645 parcels have yet to be reviewed or revised.** This puts us well ahead of schedule to complete the parcel project within the allotted three-year timeframe and estimated \$75,000 budget.

However, the remaining parcels include some notable technical mapping challenges. These include: poorly described rural parcels in areas completely lacking survey control; government lands requiring interagency deed searches; and the Teton Springs Resort, which has been amended so often that its platted parcels are spread across more than 100 recorded instruments. Greenwood has created a list of "unfixable" parcels, which will require further research by the Assessor and in some cases amended deeds and surveys.

While parcel accuracy has been vastly improved, I must caution that our parcel data is far from perfect. Vague and conflicting legal descriptions, along with misaligned or erroneous surveys, are facts of life in the parcel-mapping world, and sometimes mean we cannot simply adjust the parcel location and fix the

problem. We have left some of these conflicts visible on the parcel layer so as not to hide serious issues. Where parcel misalignment is minor, we generally snap boundaries together based on our best interpretation of intent.

Web Map Changes

Rapid changes in the consumption of Internet content, primarily the explosive adoption of mobile devices and new operating systems, forced the GIS Department to re-evaluate the utility of our online Web maps this year. I have recently developed new interactive maps based on mobile-friendly Web technology.

This revolution in consumer electronics is a major issue throughout the GIS industry, as the typical consumer of online data is no longer a desktop PC user. The maps I deployed about three years ago, based on the then-popular Adobe Flex platform, are not accessible by consumer tablets and smartphones using Android, iOS (Apple) and other non-Windows mobile operating systems. In fact, they were sometimes problematic even with desktop Mac users. Yet, by some estimates, non-Windows devices now represent 85% of computer devices shipped worldwide! Local realtors have been clamoring for more a mobile-friendly GIS solution.

Over the last couple of months, I reconstructed all of our public-facing, interactive Web maps as new, mobile-friendly map applications. I used ESRI's new Web App Builder, a Javascript / HTML-based developer tool that creates apps that automatically reformat for use by tablets, phones and desktop computers on a variety of popular operating systems.

I removed all of the old desktop-only maps, with the exception of the old Address and Parcel Map application, which remains in the Map Gallery alongside the new version. Both versions remain live in order to ease transition to the new format, which has similar functions but a slightly different interface and additional tools. I have also posted video tutorials on the GIS Department page to assist the public and Teton County staff in adapting to the new maps. So far, public feedback has been nothing but positive. I would like to encourage all County officials and staff to familiarize themselves with these new maps and their functionality, both to assist them in their jobs and enable them to answer public inquiries about the GIS system.

It should be noted that Web App Builder is an “out-of-the-box” web-development tool, with limited options for customization. Further custom tailoring of the apps I’ve created is possible, but requires Javascript / HTML programming skills beyond my current skill set. Hiring out such tasks to a Web developer is not cost-effective at this time. One contractor I contacted estimated a \$30,000 expense to convert just our Flex-based Address and Parcel Map into a mobile-friendly app—which I did in Web App Builder at no cost beyond my time (albeit with less customization). I will confer with our new Web contractor to see if he can assist in minor customization needs as they arise.

Aerial Imagery Updates

In 2008, the fledgling Teton County GIS department acquired high resolution aerial imagery (1-ft. / pixel) from Aero-Graphics, a photogrammetry service in Utah. The cost was about \$30,000. It was a vast improvement over 1-meter National Agriculture Imagery Program (NAIP) data which was, and still is, available for free. In 2012, our GIS software vendor, ESRI, updated its free online imagery service with July, 2011 imagery at 1-ft. resolution. This precluded the need to fly another aerial photography mission for the next few years, especially considering the nearly non-existent growth in Teton County at the time.

However, as we move toward 2016, this online imagery has not been updated further, and the County is now experiencing accelerated growth. The Assessor, Public Works and Planning have all expressed the need for more up-to-date imagery to keep track of changes on the ground. ESRI has so far not been willing to commit to an imagery update for our area, but I have an inquiry on this topic pending with their tech support.

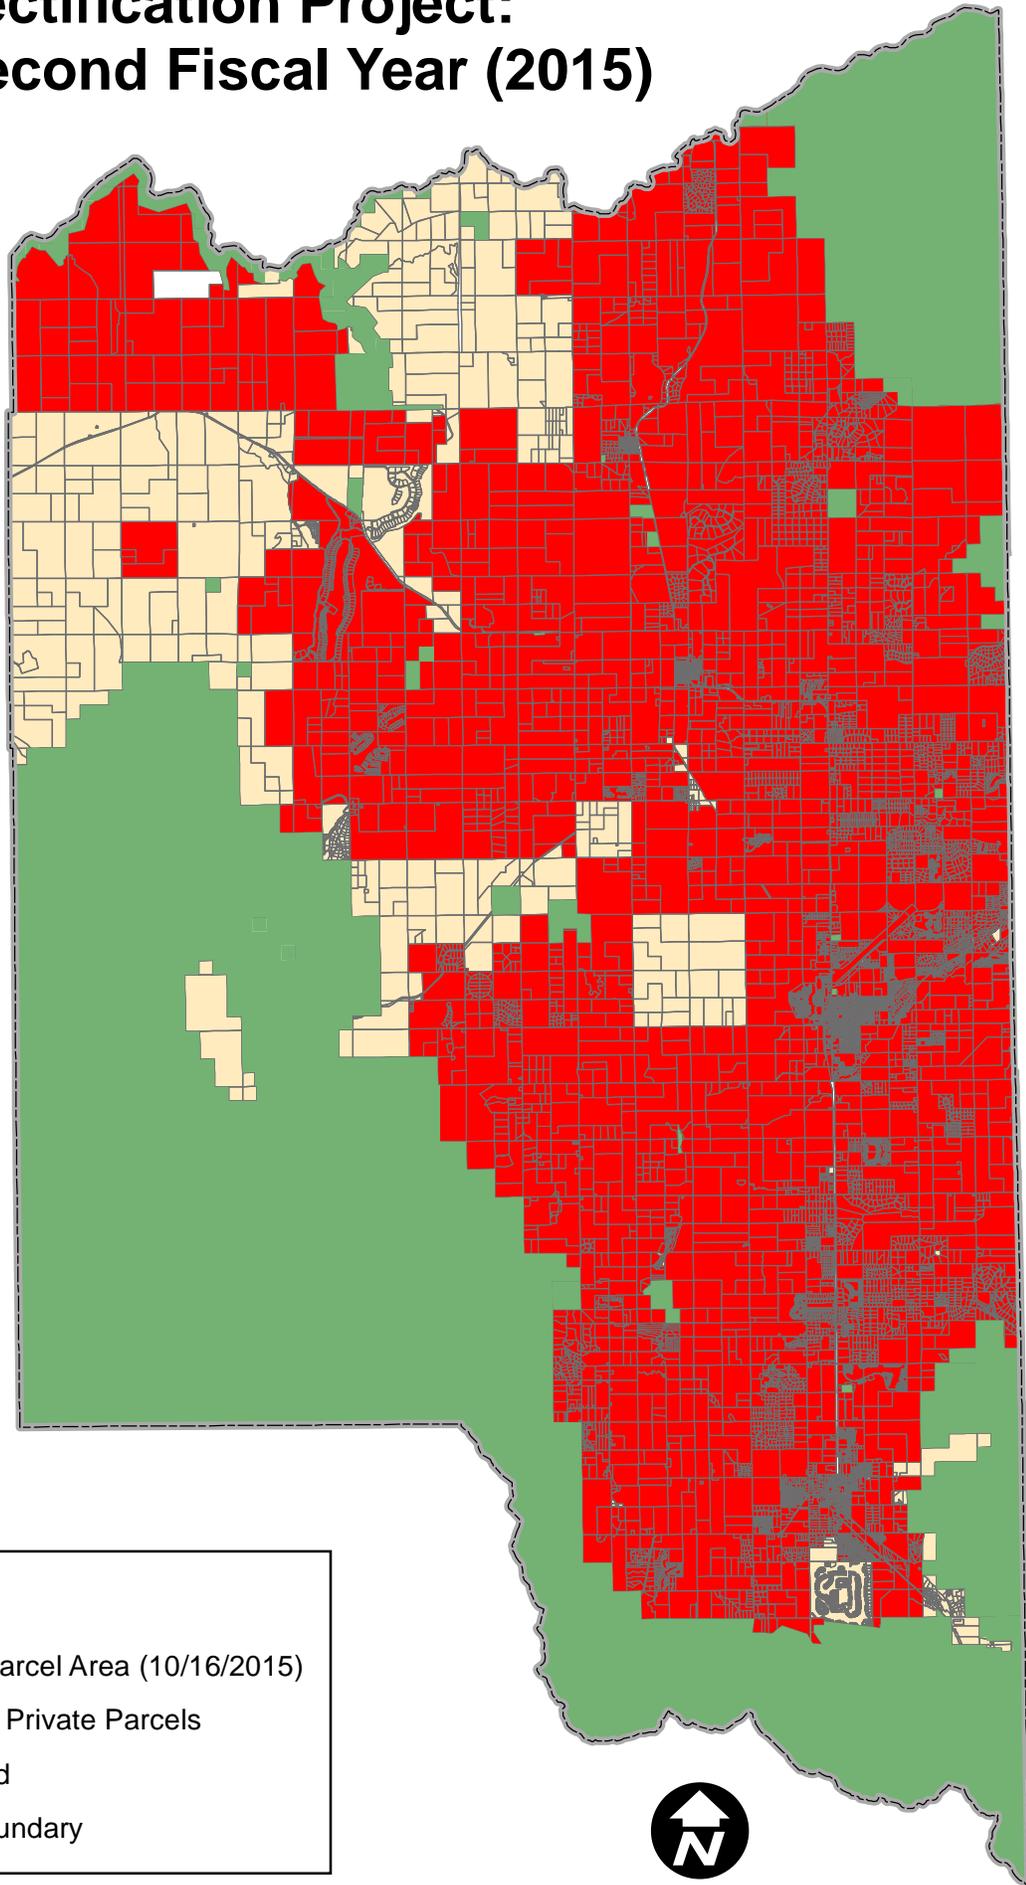

I recently shopped for two new bids on flying a new imagery mission, to get an idea of current costs. The lowest estimate is from Aero-Graphics, who quoted \$15,200 for 1-ft. or \$28,775 for 6-inch

resolution, county-wide imagery. The County's Appraiser indicated that the 6-inch imagery would be especially advantageous to his work.

I am also currently investigating new subscription-model imagery services, where data is automatically updated from satellite data at prescribed intervals for a set fee. Generally this imagery would be 1-ft. resolution (comparable to what we use now). I have yet to receive a quote from the vendor I recently contacted. We'll see if this is a cheaper solution.

I want the BOCC to keep in mind that we may need to set aside funds for updated imagery come the next budget cycle, as I seek out the highest quality, most cost-effective solution.

Clerk – Mary Lou Hansen

1. Quarterly Budget Review
2. New Lead Auditor
3. Resolution 2016-1026 adopting revised fee schedule for FY16
4. 2016 Health Insurance Decisions

ADMINISTRATIVE BUSINESS (*will be dealt with as time permits*)

1. Approve Available Minutes
2. Other Business
 - a. Beer and Wine Licenses
3. Committee Reports
4. Claims
5. Executive Session (if necessary) for Indigent per IC 74-206(1)(d)

ADJOURN

COMMISSIONERS PRESENT: Cindy Riegel, Kelly Park

OTHER ELECTED OFFICIALS PRESENT: Prosecutor Kathy Spitzer, Clerk Mary Lou Hansen

Commissioner Riegel called the meeting to order at 9:02 am and led the Pledge of Allegiance.

EASTERN IDAHO PUBLIC HEALTH

District Director Geri Rackow distributed and reviewed the Annual Report for FY 2015 (Attachment #1). She said the district's relatively low salaries made it difficult to recruit and retain qualified staff. Educating the public about EIPH and the services provided was a major goal of every employee during the past year. Ms. Rackow highlighted the accomplishments and challenges of the four different EIPH divisions, which include: (1) Health Preparedness, Promotion & Surveillance; (2) Environmental Health; (3) Family & Community Health Services; and (4) WIC/Nutrition. Dr. Gary Rillema, Director of the Family & Community Health Services Division, said 737 Teton County residents received a total of 1,200 vaccines through the immunization program. He explained the Parent as Teachers program and other services provided by his Division.

OPEN MIC

Dave Hudascko of RAD Curbside said his business remains on schedule for the Nov. 1 waste-hauler transition.

JUVENILE PROBATION

Chief JPO Renee Leidorf said recent staff changes at Tri-County Probation have resulted in the closure of the drug testing lab in Rexburg. Redwood Lab in California is the recommended replacement. In order to be eligible for state contract pricing at Redwood Lab, Teton County must enter into a facility agreement with MMCAP (Minnesota Multistate Contracting Alliance for Pharmacy.) Ms. Leidorf said there is no cost involved and that Prosecutor Spitzer has reviewed and approved the agreement.

● **MOTION.** Commissioner Riegel made a motion to approve a Facility Membership Agreement with MMCAP in order to obtain state contract pricing at Redwood Lab. Motion seconded by Commissioner Park and carried. (Attachment #2)

PUBLIC WORKS

Public Works Director Darryl Johnson reviewed his bi-monthly update (Attachment #3).

SOLID WASTE. Construction of the landfill cap was completed October 16. Weather permitting, the cap will be seeded, perimeter fencing installed and lysimeter pad constructed, by the end of October.

ENGINEERING. Mr. Johnson has obtained wetland mitigation project cost estimates from Alder Environmental for the two preferred options related to the W6000S reconstruction project. They estimate that design of the Heimerl project will cost \$5,000 and construction will cost about \$20,000. Design of the Fox Creek Channel re-alignment project will cost \$15,000 and construction will cost at least \$50,000. Mr. Johnson said Friends of the Teton River supports both projects. Unfortunately, FTR has no funding available to help pay the cost of the project and federal funds cannot be used for wetland mitigation projects. A project will be selected made after Mr. Johnson confirms that the landowners involved in both projects are still willing to cooperate and provide permanent protection for the land.

● **MOTION.** Commissioner Park made a motion to submit a 2015 request to the Local Highway Technical Assistance Council seeking a \$100,000 Local Rural Highway Improvement Project grant for a triple coat of chip seal on a segment of N500W as recommended by the Public Works Director. Motion seconded by Commissioner Riegel and carried. (Attachment #4)

Mr. Johnson said the Road & Bridge crew would reconstruct the road prior to application of the grant-funded chip seal.

● **MOTION.** Commissioner Park made a motion to approve out-of-county travel for the Public Works Director to attend the Idaho Association of Highway Districts and Idaho Association of County Engineers & Road Supervisors joint conference in Boise November 9-13. Motion seconded by Commissioner Riegel and carried.

Later in the meeting, the Board discussed whether Commissioner Park should also attend the conference. Commissioner Park would like to become a member of the LHTAC Board of Directors in order to represent Teton County and southeast Idaho when grant funding decisions are made. He believes attendance at this conference will help that effort. He would also like to learn more about roads in general and specifically to understand whether the county's use of bentonite as a binding agent is more cost-effective than magnesium chloride. Commissioner Riegel wondered if the travel expense was justified and if Commissioner Park would benefit from the entire week-long conference or just certain portions. After more discussion, the Board concluded that Commissioner Park could attend the conference.

FACILITIES. Courthouse signage needs to be updated due to the recent re-assignment of GIS, Public Works and Weed Supervisor offices. A \$1,436 estimate has been obtained from Sign Pro for replacement signs.

● **MOTION.** Commissioner Park made a motion to purchase new directory signs at a cost not to exceed \$1,436 using money from contingency account #1-18-526. Motion seconded by Commissioner Riegel and carried.

● **MOTION.** Commissioner Park made a motion to approve a \$500 Noteworthy Performance Award for Troy Jones in recognition of his performance during the facilities manager transition. Motion seconded by Commissioner Riegel and carried. (Attachment #5)

PLANNING & BUILDING

Planning Administrator Jason Boal recommended approval of Robert Lallatin's request for an Insignificant Plat Amendment combining two lots into one in Valley Vista Estates. (Attachment #6).

● **MOTION.** Commissioner Riegel made a motion to approve the Insignificant Plat Amendment for Valley Vista Estates as requested, based on the findings of fact contained in the staff report. Motion seconded by Commissioner Park and carried.

Mr. Boal reviewed a flow chart illustrating the Land Use Development Code Revision Process as determined by the Planning & Zoning Commission October 20 (Attachment #7). The lack of dates reflects the fact that the PZC is focused on completing a thorough review, not on meeting a specific schedule. However, Mr. Boal said the PZC is highly motivated to complete the revision process as quickly as possible. He is coordinating with the University of Idaho to insure that their analysis contains the information requested by the PZC.

● **MOTION.** Commissioner Park made a motion to approve the MOU with Teton Arts Council regarding the outdoor art display at the Law Enforcement Center. Motion seconded by Commissioner Riegel and carried unanimously.

Mr. Boal said the phone booth and art at the northeast corner Law Enforcement Center completes the final requirement necessary in order to receive a Certificate of Occupancy for that building.

INFORMATION TECHNOLOGY

IT Administrator Greg Adams reviewed his memo providing details about \$29,183 worth of IT software and hardware urgently needed for the county's computer network (Attachment #9). Items requested include 2 new servers, 2 new power supply units, a firewall, etc. He explained the lack of storage space that caused the county network to be off-line this morning and said the items requested will only benefit the county-wide network, except that the email server and firewall will also benefit the Sheriff's secure network. The FY 2016 IT budget includes \$5,500 for a new server; remaining cash or contingency funds will be needed for the remaining amount.

● **MOTION.** Commissioner Park made a motion to approve expenditure of up to \$23,683 out of contingency account 01-18-526 to purchase the items listed in Mr. Adams' report. Motion seconded by Commissioner Park and carried.

CONTRACTS. Commissioner Riegel thanked Mr. Adams for trying to modify the Computer Arts Inc. software contract to better protect the county. Clerk Hansen said CAI has provided excellent software and support services to the county for many years.

● **MOTION.** Commissioner Riegel made a motion to approve the Computer Arts software and support contracts for FY 2016. Motion seconded by Commissioner Park and carried unanimously. (Attachment #10)

● **MOTION.** Commissioner Park made a motion to approve the IT Service Agreement with JCorp Services. Motion seconded by Commissioner Riegel and carried. (Attachment #11)

CLERK

The Board reviewed the 9-30-15 quarterly reports prepared by Clerk Hansen (Attachment #12). She said the FY 2015 fiscal year will be closed October 27. The general fund contingency started with \$82,000 and ended with \$13,588; \$30,000 was needed for excess jail days, \$15,349 was needed to help fund the building inspector vehicle, and the balance was spent for a variety of smaller cost items. Clerk Hansen said her July 1 “remaining cash” projections were more accurate than last year’s.

● **MOTION.** Commissioner Park made a motion to hire the new Lead Auditor at 88% of the Market Rate. Motion seconded by Commissioner Riegel and carried unanimously.

● **MOTION.** Commissioner Park made a motion to approve Resolution 2015-1026 adopting the updated Fee Schedule for FY 2016. Motion seconded by Commissioner Riegel and carried. (Attachment #13)

● **MOTION.** Commissioner Riegel made a motion to approve the premium split for employee health insurance as presented. Motion seconded by Commissioner Park and carried unanimously. (Attachment #14)

ADMINISTRATIVE

● **MOTION.** Commissioner Park made a motion to approve the minutes of October 13 and October 21 as presented. Motion seconded by Commissioner Riegel and carried.

● **MOTION.** Commissioner Park made a motion to approve a beer and wine license for the Teton Arts Council 7th annual Souper Bowl. Motion seconded by Commissioner Riegel and carried.

COMMITTEE REPORTS. Commissioner Park reported on the special Tri-County Probation meeting made necessary by the resignation of a long-time employee who managed the drug testing lab. Her departure caused the Board to decide to close the lab and re-structure some staff duties. Commissioner Park said the changes will have no net impact on the Tri-County budget or to the amounts contributed by each county.

Commissioner Riegel attended a meeting of the High Country RC&D cloud seeding steering committee. She learned that Idaho Power is a major funding source for cloud seeding efforts, but that cities and counties, including Teton, are also asked to make cloud seeding donations. Commissioner Riegel subsequently learned that Teton Soil Conservation District supervisors don’t think the program benefits the county. She has invited Idaho Power to attend a future meeting this winter in order to explain the benefits of cloud seeding.

● **MOTION.** Commissioner Park made a motion to approve the following claims as presented, provided the Sign Arts claim is clarified. Motion seconded by Commissioner Riegel and carried.

FY 2015

General	\$2,573.97
Court-Bonds	707.50
Solid Waste	11,100.70
TOTAL	\$14,382.17

FY 2016

General	\$119,729.97
Road & Bridge.....	1,609.94
Court & Probation	29,332.86

Mayor Smith, Mayor Hoopes, Chairman Leake,

Attached is the Driggs Resolution supporting the effort to reform Idaho Liquor law by pursuing the creation of a new class of license to be called the *Resort City Restaurant License*.

We respectfully request that you consider adopting a similar resolution of support for the effort. No financial commitment is implied with this resolution. Also attached is a copy of the most current draft concept for your review. The intent of this effort is to improve the business viability of our local restaurateurs. This is the culmination of many years of effort by myself, former Mayor Dan Powers, and Driggs Council Member Ralph Mossman, as well as other business owners and elected officials around the state. We believe we have a very good chance of accomplishing the task this year, and ask that you indicate your support for this through passage of a similar resolution.

Please let me know if you have any questions.

Respectfully,

Mayor Hyrum Johnson,

208-354-8522 (fax)

Chairman Leake, in response to your request - attached is a document we sent to our legislators last year. It was the opening of the dialogue with them which resulted in the concept now being pursued - to create a new class of license called the Resort City Restaurant License. (That concept is presented in the document I sent previously together with the resolution language.)

Some key points:

- Idaho liquor-by-the-drink licenses are allocated based on city population. In addition Idaho has created a number of 'exception' or 'specialty' licenses. Examples are golf courses, ski resorts, airports, and various other tourist attractions or amenities.
- Currently there are in Teton Valley (or could be under current statutes) more out-of-city (specialty) facilities allowed to serve liquor than in-town facilities. If a visitor tires of the bar atmosphere of our current in-town restaurants holding state quota licenses, then they must drive outside the city to access additional options at one of these facilities. This draws revenue out of the cities, and even out of the state (Targhee).
- Current liquor law in Idaho is arcane. It discourages investment by prospective businesses (restaurants and hotels) and earns our state a poor reputation in the tourism community.
- We are asking the legislature to reform Idaho liquor law comprehensively as neighboring states have done in previous years. Given their resistance to comprehensive reform, we are asking for the creation of this new class of license.
- The new license is a restaurant - not a bar - license. Significant restrictions would distinguish the two and prevent the new license from morphing into a bar.

Again I respectfully request that the Board of County Commissioners adopt a resolution of support for this effort. I am asking the City of Victor for a similar resolution.

Thank you for your consideration. Let me know if you have any further questions.

Thanks Hyrum,

Before acting on this, it would be helpful to have the history and a more in depth understanding of the impacts, pros, cons, advantages, and disadvantages. Is there a written analysis that can be provided to enlighten us on the details and history that lead to this resolution. I fully support the concept but will need more information before I can move forward with proposing a county resolution.

RESOLUTION NO. 306-15

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF DRIGGS, IDAHO, IN SUPPORT OF EFFORTS TO CREATE A NEW CLASS OF IDAHO LIQUOR LICENSES WHICH WILL ALLOW RESTAURANTS IN DRIGGS TO SERVE MIXED DRINKS WITH MEALS FOR THEIR CUSTOMERS WHILE MINIMIZING IMPACTS TO EXISTING LICENSE HOLDERS.

THIS RESOLUTION, made on the date hereinafter set forth by the City Council of the City of Driggs, Idaho, a municipal corporation under Idaho Law, hereinafter referred to as the "City."

WHEREAS, tourism is a significant economic component of the City of Driggs, and

WHEREAS, the City of Driggs is considered a resort city by the State of Idaho, and

WHEREAS, full-service restaurants in which cocktails are available with a meal are an important part of the tourist experience,

NOW THEREFORE, BE IT RESOLVED THAT THE MEMBERS OF THE CITY COUNCIL OF THE CITY OF DRIGGS, IDAHO, DO HEREBY:

Support efforts to create a new class of Idaho Liquor Licenses which will allow restaurants in the City of Driggs to serve mixed drinks with meals for their customers, and further that

Said support recognizes the value of existing liquor license holders and is not intended to reduce that value, and includes the need to keep this new class of licenses highly restricted, non-transferable, and introduced gradually so as to minimize the impacts to existing license holders.

This Resolution shall be in full force and effect immediately upon its adoption and approval.

PASSED by the City Council of the City of Driggs, Idaho, on September 1, 2015. Signed by the Mayor, and attested by the City Clerk, on this 2nd day of September 2015.

Teton County Social Media Policy

Revised 11/4/2015

Purpose

This policy establishes guidelines for the establishment and use by Teton County of social media sites (including but not limited to Facebook) as a means of conveying Teton County (“County”) information to its citizens and visitors alike.

The intended purpose behind establishing Teton County social media site(s) is to disseminate information from the County, about the County, to its citizens.

Teton County has an overriding interest and expectation in deciding what is “spoken” on behalf of the County on County social media sites.

For purposes of this policy, “social media” is understood to be content created by individuals, using accessible, expandable, and upgradable publishing technologies, through and on the Internet. Examples of social media the County may choose to use are Facebook, Twitter, and Nixle. For purposes of this policy, “comments” include information, articles, pictures, videos or any other form of communicative content posted on a County social media site(s).

General Policy

1. The establishment and use by any County department of County social media sites are subject to approval by the Board of County Commissioners (BoCC). All County social media sites shall be administered by County Public Information Officers and Information Technology (IT) staff.
2. County social media sites should make clear that they are maintained by the County and that they follow the County’s Social Media Policy.
3. Wherever possible, County social media sites should link back to the official Teton County website for forms, documents, online services and other information necessary to conduct business with Teton County.
4. The Public Information Officer (County Executive Assistant) will monitor all content on County social media sites to ensure adherence to both the County’s Social Media Policy and the interest and goals of Teton County.
5. Social Media Contacts from each department that share information via social media sites will monitor the content for *their* department to ensure adherence to both the County’s Social Media Policy and the interest and goals of Teton County.
6. The County reserves the right to restrict or remove any content that is deemed in violation of this Social Media Policy or any applicable law. Any content removed based on these guidelines must be forwarded to the Public Information Officer including the time, date, and identity of the poster, when available.
7. These guidelines must be displayed to all users.
8. The County will approach the use of social media tools as consistently as possible, enterprise wide.
9. The Teton County website at www.tetoncountyidaho.gov will remain the County’s primary and predominant internet presence.
10. All County social media sites shall adhere to applicable federal, state and local laws, regulations and policies.
11. County social media sites are subject to the Idaho Public Records Act. Any content maintained in a social media format that is related to County business, including a list of subscribers, posted communication, and communication submitted for posting, may be a public record subject to public disclosure.
12. Comments on topics or issues not within the jurisdictional purview of the Teton County may be removed.

Teton County Social Media Policy

Revised 11/4/2015

13. Employees representing Teton County government via County social media sites must conduct themselves at all times as a representative of the County and in accordance with all County policies.
14. The use of social media by County employees is intended for the sole purpose of County business. Personal use is not acceptable.
15. This Social Media Policy may be revised at any time.

Comment Policy

1. As a public entity the County must abide by certain standards to serve all its constituents in a civil and unbiased manner.
2. The intended purpose behind establishing County social media sites is twofold; one is to disseminate information from the County, about the County, to its citizens and two is to engage in a dialogue with citizens and visitors or potential visitors.
3. Comments containing any of the following inappropriate forms of content shall not be permitted on Teton County social media sites and are subject to removal and/or restriction by the Public Information Officer or Social Media Contacts:
 - a. Comments not related to the original topic, including random or unintelligible comments;
 - b. Comments that cannot be verified as factual;
 - c. Profane, obscene, violent, or pornographic content and/or language;
 - d. Content that promotes, fosters or perpetuates discrimination on the basis of race, gender, color, religion, sex, national origin, mental disability or physical disability
 - e. Defamatory or personal attacks;
 - f. Threats to any person or organization;
 - g. Comments in support of, or in opposition to, any political campaigns or ballot measures;
 - h. Solicitation of commerce, including but not limited to advertising of any business or product for sale;
 - i. Conduct in violation of any federal, state or local law;
 - j. Encouragement of illegal activity;
 - k. Information that may tend to compromise the safety or security of the public or public systems;
 - l. Content that violates a legal ownership interest, such as a copyright, of any party.
4. A comment posted by a member of the public on any County social media site is the opinion of the commentator or poster only, and publication of a comment does not imply endorsement of, or agreement by, Teton County, nor do such comments necessarily reflect the opinions or policies of Teton County.
5. The County reserves the right to deny access to Teton County social media sites for any individual, who violates the County's Social Media Policy, at any time and without prior notice.
6. The Public Information Officer and Social Media Contacts shall monitor County social media site(s) for comments requesting responses from the County and for comments in violation of this policy.
7. When a Teton County employee responds to a comment, in his/her capacity as a Teton County employee, the employee's name and contact number should be made available at the beginning of the post feed. The employee shall not share personal information about himself or herself, or other County employees.
8. All comments posted to the Teton County Facebook site are bound by Facebook's Statement of Rights and Responsibilities, located at <http://www.facebook.com/terms.php>, and the County reserves the right to report any violation of Facebook's Statement of Rights and Responsibilities to Facebook with the intent of Facebook taking appropriate and reasonable responsive action.

Bannock County delegation to lobby Postal Service

USPS promises to maintain standards

Staff Writer

POSTED: 04:07 PM MDT Oct 20, 2015 UPDATED: 05:12 PM MDT Oct 20, 2015

POCATELLO, Idaho -

A delegation of Bannock County leaders will travel to Washington D.C. October 27 to press the United States Postal Service to reopen the Flandro Mail Processing Center.

Mayor Brian Blad met with Post Office representatives from Salt Lake City Tuesday. "Ultimately though," said Blad, "we feel our concerns would be best addressed by officials in Washington, D.C."

The rest of the delegation will include Chubbuck Mayor Kevin England, Bannock County Commissioner Howard Manwaring, Pocatello Planning and Development Services Director Lon Crowell, and Old Town Pocatello Inc. Executive Director Stephanie Palagi.

The processing center was closed in April 2015. Mail once processed in Pocatello is now being sent to Salt Lake City.

Blad believes the postal service decision is having an adverse impact on mail customers.

"Businesses cannot operate efficiently and people who depend on timely mail service are at the mercy of USPS. This is simply unacceptable," said Blad.

U.S. Postal Service District Manager Darrell Stoke said the post office revised service standards in

January 2015 to implement a two-day delivery standard for local First-Class Mail.

He said the action was part of a national change, not one affecting only Pocatello.

The USPS says mail volumes in the Pocatello area have decreased dramatically over the past few years. Letter mail volume is down by more than 20 percent in that time.

The Post Office said it has attempted to minimize the impact on its customers and employees, according to Stoke.

The Gateway Station Office in Pocatello is still open and continues to process mail for delivery on Pocatello's carrier routes. It is also a Post Office transportation hub and Bulk Mail Entry Unit.

Stoke told Blad Tuesday that the postal service would continue to work hard to deliver the best possible mail service for all customers.

BoCC Priorities – updated 9/21/15 added items 21, revised 4, 8, 20

- 1) Land Fill Cap rebuild & 5000South
