

Dear P & Z Commissioners:

Input relative to request for comments by COB 12/26.

1. The recent election of two Republicans to the County Commission is a reflection of the majority opinion of the new Comprehensive Plan that was forced on us. At the heart of this angst is the potential for downzoning and it appears that is what is on your agenda January 8.

If I am correct, it will be interesting to hear your rationale for initiating public discussion of such an important topic before the new Commissioners are installed. You are going against the will of the people.

2. I also strongly object to the very brief period "allowed" for written comment -- especially when announced just prior to the busiest Holiday season of the year. This is disingenuous at best. Illegal?

Caroline Reynolds
