

Status of Teton County Commissioners' Priorities

In early 2015, the Board of County Commissioners (BoCC) established a list of priority projects and initiatives. This list continues to evolve as projects get completed and county needs change. We will update this list periodically to keep the public informed of the current work the BoCC is engaged in.

Emergency Management, Ambulance Service District

Emergency Management - The BoCC is actively engaged in emergency management efforts by the County. Teton County has an Emergency Management Coordinator who oversees and ensures that we have the capability to deal with any potential emergencies in our area. We recently hosted a drill with 14 partnering agencies that tested emergency response efforts for a potential major winter storm. There were 38 people in attendance that worked to identify how response efforts across all entities would come together to ensure the safety of residents of Teton County. For more information on this topic visit: <http://www.tetoncountyidaho.gov/department.php?deptID=11&menuID=1>

Ambulance Service District Contract - The County Commissioners also serve as the Board of Directors for the Ambulance Service District (ASD). This board is exploring alternatives for addressing the funding shortfall facing the ASD under the current contract with Teton Valley Health Care (TVHC). They are weighing options for reducing the cost while maintaining current levels of service and qualifications. Both TVHC and Teton County Fire Protection District (TCFPD) are interested in contracting with Teton County to staff and administer ambulance services in the county.
